

Which master components each page uses, and where it has drifted.

Every section on the 81 pages listed on [start-here.html](#), checked against the 119 master components in the library ([index.html](#)).

81

pages

561

content sections

95%

built from a master

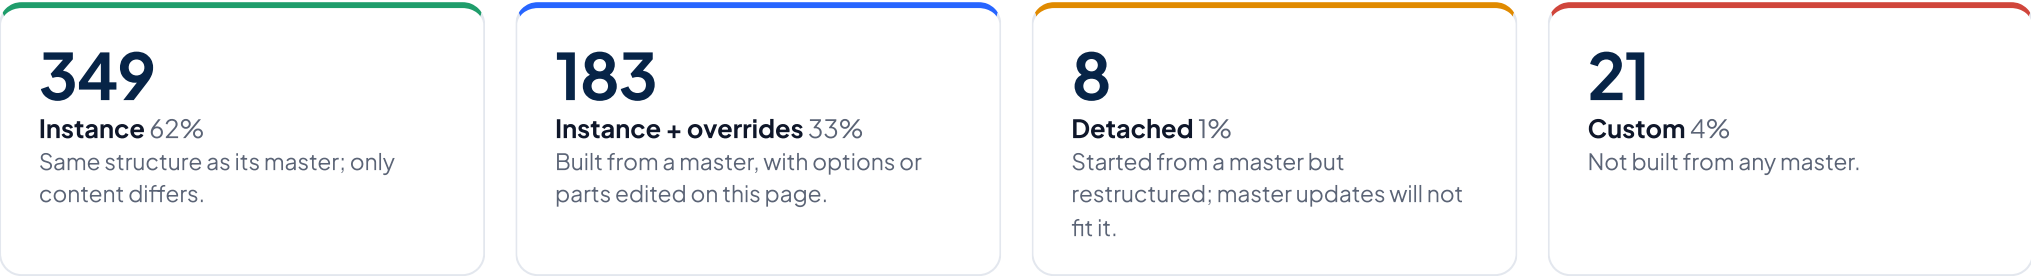

21

custom sections

34

masters never used

Most of the site is built from the library. The drift is concentrated.

The finding that matters most

Pages do not hold a live link to their master. Each instance is a pasted copy of the master's markup. That means only part of a master change reaches the pages:

- **Styling and behaviour do flow.** Every page loads the same ds.css and ds.js, so a change to a master's look or animation reaches all its instances.
- **Structure does not flow.** Adding a slot, swapping a button type or reordering a master changes nothing on the 81 pages. Each instance keeps the markup it was pasted with.

So "Instance + overrides" and "Detached" sections are where a future master change will either not appear or break. That is the list to fix first.

How each section was judged

Instance	Structure matches the master at 75% or more. Content, images and option classes (size, alignment, overlay strength, button role) are ignored: those are expected per-instance choices.
Instance + overrides	Clearly that master, but parts were added, removed or rearranged on the page.
Detached	Carries the master's name but has been rebuilt. Mason reviewed every one by hand.
Custom	Not built from any master. Sophia matched each to the masters that could replace it.

Site header, footer and modals (171 sections) are counted separately. Text, images and layout utilities were ignored when comparing.

Which masters the pages lean on.

Instances counted across all pages, including site header and footer. "Pages" is how many distinct pages use it.

Used only inside another section (not counted above as unused): **Scroll Scenes** on `cib-home-final.html`.

Building blocks such as buttons, typography, tables and payment mock-ups are used inside sections rather than as sections, so they are not part of this count: Checkout Card, POS Terminal, Phone Checkout, Payment Link, Chat Pay Invite, Browser Checkout, API Request, Form Elements, Breadcrumb, Pagination, Buttons, Typography, Icon Tiles & Numbers, Card Surfaces, Illustration Video, Lottie, Badges, Tags & Lists, Toast, Table, Empty State.

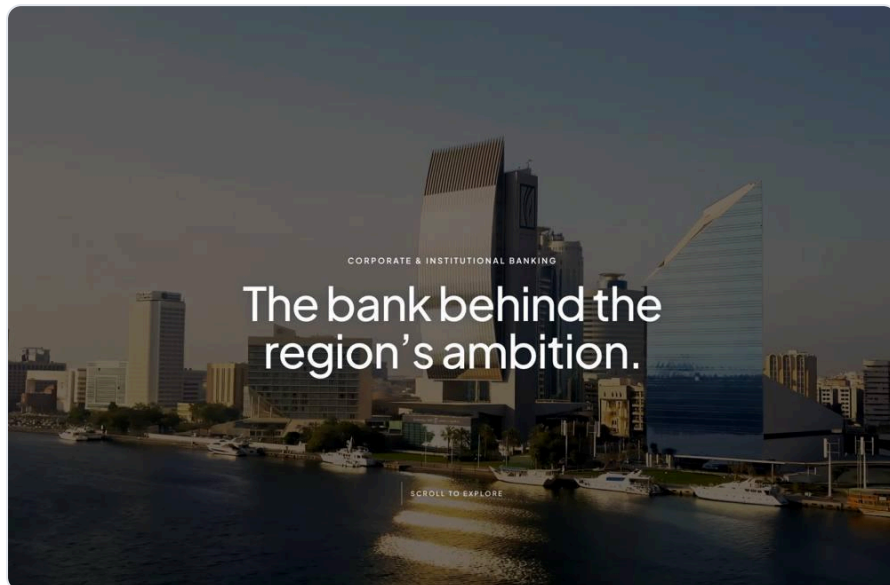

Pages using components outside the gallery

Not in the library gallery: `world-map-stats` (5 pages). These have a block file but no gallery entry, so nobody browsing the library can find them.

Superseded masters still in use: `article-card` (1 pages).

Sections not built from a master, and what could replace them.

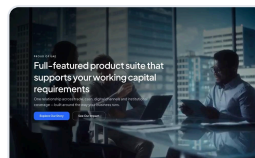

Each one with Sophia's recommended masters, ranked. **DIRECT** drops in with the same content shape, **CLOSE** needs small reshaping, **PARTIAL** covers the main job but loses something.

Corporate & Institutional Banking · cib-home-final.html · section 1

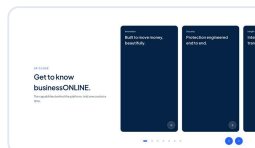

The bank behind the region's ambition.

Home-page opener film: full-bleed world plate with H1 and scroll cue that hands off into a 'One bank. Multiple ways to grow.' statement row of solution tiles (a phone render lands in the first tile), with prev/next arrows.

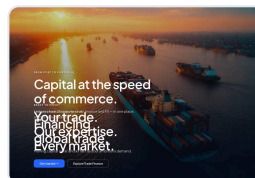

PARTIAL · Hero (Single (video)) hero

Carries the opener job: video media, eyebrow, H1, pause control. Adapt: Loses the world-plate parallax, side captions and the scroll handoff into the tile row.

PARTIAL · Cards: Tiles (Aside carousel) cards-tiles-aside-carousel

Head-aside carousel of full-bleed image tiles matches the statement row (head left, tiles right, arrows). Adapt: Would be a separate section after the hero; the phone landing in the Digital tile is lost.

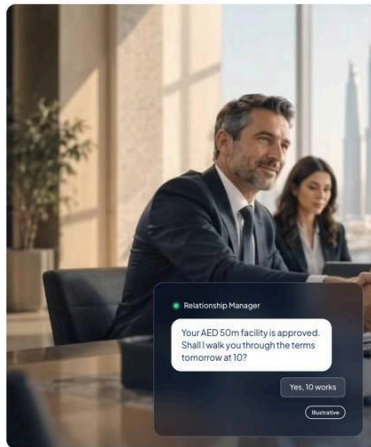

PARTIAL · Hero: Cinematic (Dark) hero-cinematic-pinned

Pinned scrollytelling opener with phased text is the nearest master for the scroll-driven reveal. Adapt: Frame-sequence engine, not a video plate; no tile row.

Keep custom: Bespoke home-page film act; the hero-to-tile-row handoff is the signature moment and does not generalise.

One relationship. The whole bank.

Relationship-manager pitch: looping film with an animated RM chat panel overlay beside eyebrow, two-line H2, body, a five-item check list and two CTAs.

YOUR RELATIONSHIP

One relationship. The whole bank.

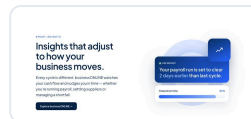

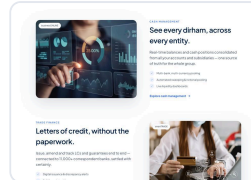

A single, trusted Global Relationship Manager who understands you, your goals and your priorities, backed by specialists across every discipline.

HOW THE RELATIONSHIP WORKS

- ✓ Single point of contact
- ✓ Tailored to your business
- ✓ Backed by experts
- ✓ Built on trust
- ✓ Regionally connected

Reach your Relationship Manager

Talk to us

CLOSE · Feature Spotlight feature-spotlight

Large media beside tight copy plus CTA is the same job.

Adapt: Chat overlay must be baked into the media (still or video); add list-check and second button in the copy column.

PARTIAL · Illustration Split illustration-split

Copy beside an illustrative composition that already includes a message bubble.

Adapt: Illustration stage, not a film; typing-sequence animation lost.

PARTIAL · Quote Band quote-band

Image beside a single human voice reads similarly.

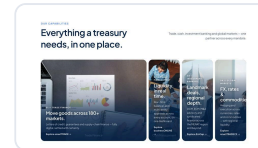

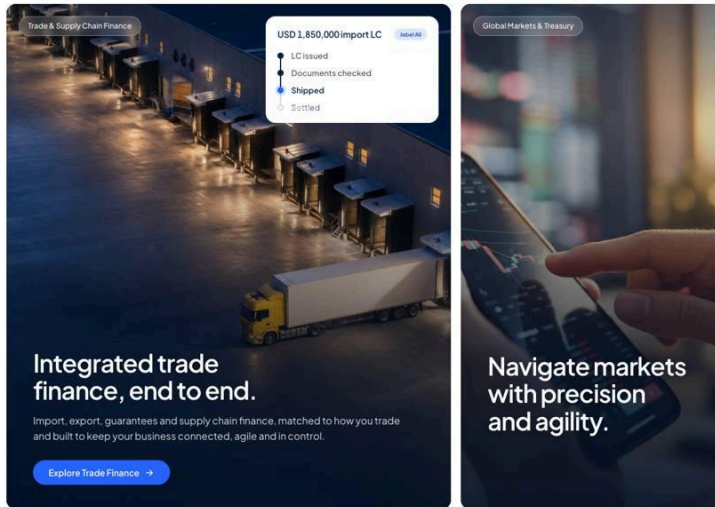

Adapt: Dark band, quote format; loses check list and CTAs.

Library gap: Media split with a live UI overlay card (chat or notification sequence) animating over a video: no master animates a UI fragment on media.

Keep custom: Home-page film act with a scripted chat sequence; feature-spotlight is the fallback for inner pages.

Integrated trade finance, end to end.

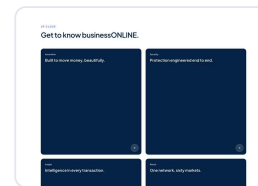

Two expanding film panes (Trade Finance, Markets & Treasury), each with a chip, an illustrative UI fragment card, H2, body and an arrow CTA; the active pane widens.

CLOSE · Bento: Expand bento-expand

Expanding image panels with label, title, description and link is exactly the interaction.

Adapt: Set to two panels; the illustrative UI fragment cards (LC tracker, FX fill) are lost unless baked into imagery; whole-panel link replaces the button.

PARTIAL · Cards: Tiles (Grid) cards-tiles

Two tall full-bleed media tiles with copy cover the content.

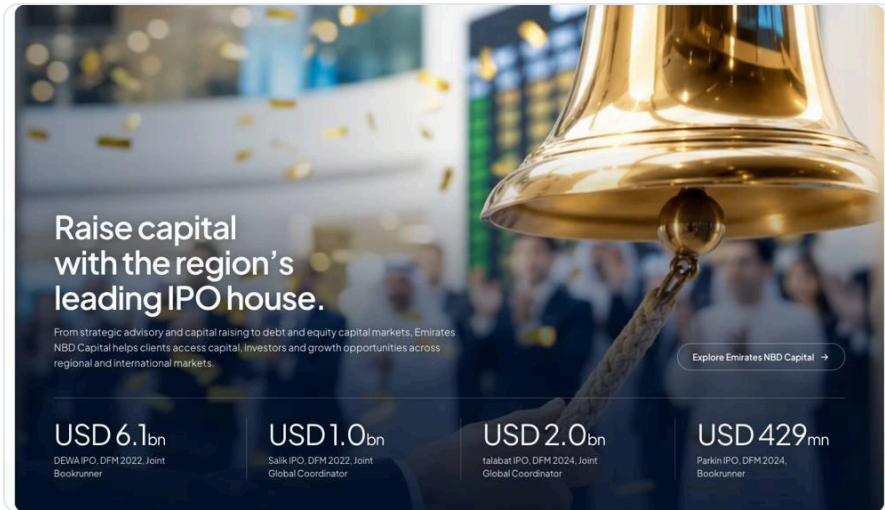

Adapt: No expand behaviour, no fragment overlay.

PARTIAL · Tabs: Experience tabs-experience

Media stage that swaps per topic covers 'pick one of two capabilities'.

Adapt: Tabbed rather than side-by-side; loses the duo composition.

Keep custom: Home-page showpiece with bespoke UI fragments; bento-expand is the library equivalent if it ever needs standardising.

Raise capital with the region's leading IPO house.

From strategic advisory and capital raising to debt and equity capital markets, Emirates NBD Capital helps clients access capital, investors and growth opportunities across regional and international markets.

USD 429mn

Parkin IPO, DFM 2024, Bookrunner

Corporate & Institutional Banking · cib-home-final.html · section 6

Raise capital with the region's leading IPO house.

Investment-banking proof band: full-bleed looping film, H2 + lede + outline CTA, then a strip of four IPO deal figures (amount + deal, exchange, role).

CLOSE · Hero: Editorial (Single) hero-editorial

Display headline pinned low with a countup ds-num stat strip under a hairline is the same anatomy, and cmp-hero takes video media.

Adapt: Used mid-page as an H2 band rather than a hero; deal labels go in the stat captions.

PARTIAL · Stats: Row stats-row

Divided row of ds-num figures with labels carries the four deals.

Adapt: Loses the film backdrop; heading and CTA via section header.

PARTIAL · Fact Grid (Deals) fact-grid

Deal fact cells (title, value, meta) fit the IPO data shape.

Adapt: Loses the film and the cinematic scale.

Keep custom: Part of the home-page film sequence (shared hf-film shell); hero-editorial is a credible replacement if the act is retired.

Corporate lending, built around your needs.

Lending act 'With a desk for ____': sector chips roll the blank, crossfade the photo and swap a desk fact card, pinned on scroll.

Corporate lending, built around your needs.

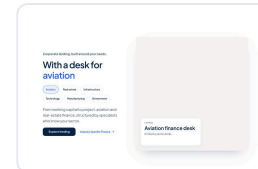

With a desk for aviation

Aviation Real estate Infrastructure
Technology Manufacturing Government

From working capital to project, aviation and real-estate finance, structured by specialists who know your sector.

Explore lending

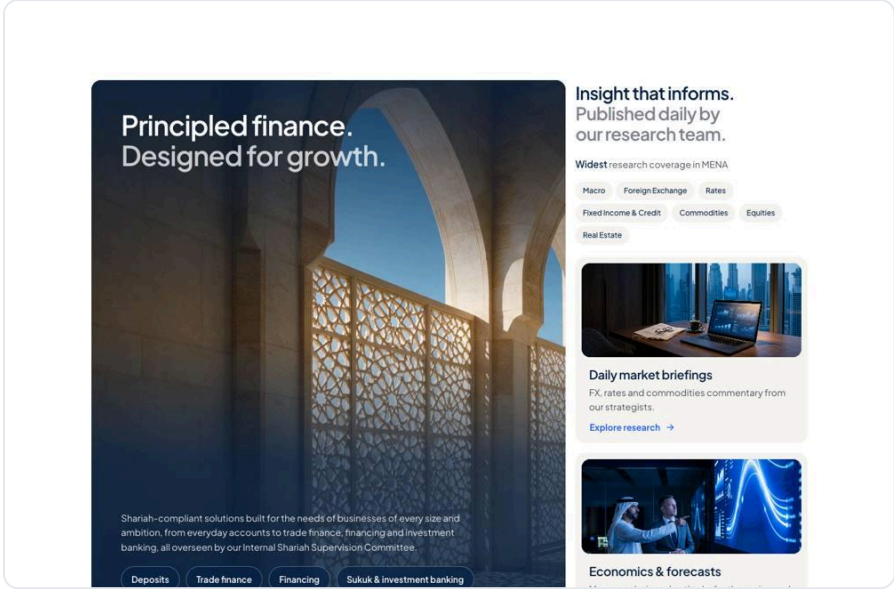

Industry Specific Finance →

DIRECT · Tabs – Desk reel tabs–desk

The master was harvested from this exact act: chips rail, rolling blank, crossfading photo, desk card, scroll pin.

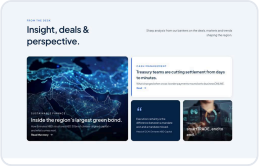

Adapt: None beyond pasting content; swap the page copy into the master.

Corporate & Institutional Banking · cib-home-final.html · section 9

Principled finance. Designed for growth.

Two-tile bento: Islamic finance film tile (H2, line, four glass chips, text link) beside a research tile (claim, coverage tags, two linked resource cards).

PARTIAL · Bento: Magazine bento-magazine

Editorial mosaic with mixed tile types suits a photo tile next to a content tile.

Adapt: Tile contents (chips, tag list, nested resource cards) need reshaping into its tile anatomy.

PARTIAL · Bento: Image Cards bento-image-cards

Photo-led mosaic carries the Islamic finance tile.

Adapt: Research tile with nested cards has no slot.

PARTIAL · Cards: Tiles (Grid) cards-tiles

Two tall media tiles side by side cover the headline job.

Adapt: Loses chips, tag list and nested research cards.

Library gap: Asymmetric two-tile bento mixing a media tile with a dense content tile (tags + nested link cards): no bento master has a nested-list tile.

Keep custom: Home-page composition pairing two unrelated topics; content is bespoke to the home narrative.

Banking built for every ambition.

Closing CTA: eyebrow, H2, body, app line, three buttons (Contact, Log in, Download app), store badges and QR tile, beside a phone render with a 'Pending actions' notification chip.

CLOSE · Static Banner static-banner

Promo band with copy, buttons and a phone render cropped at the edge is the same layout.

Adapt: Add the third button, store badges and QR tile; notification chip lost unless baked into the render.

PARTIAL · CTA Band cta-band

Closing call-to-action job is identical.

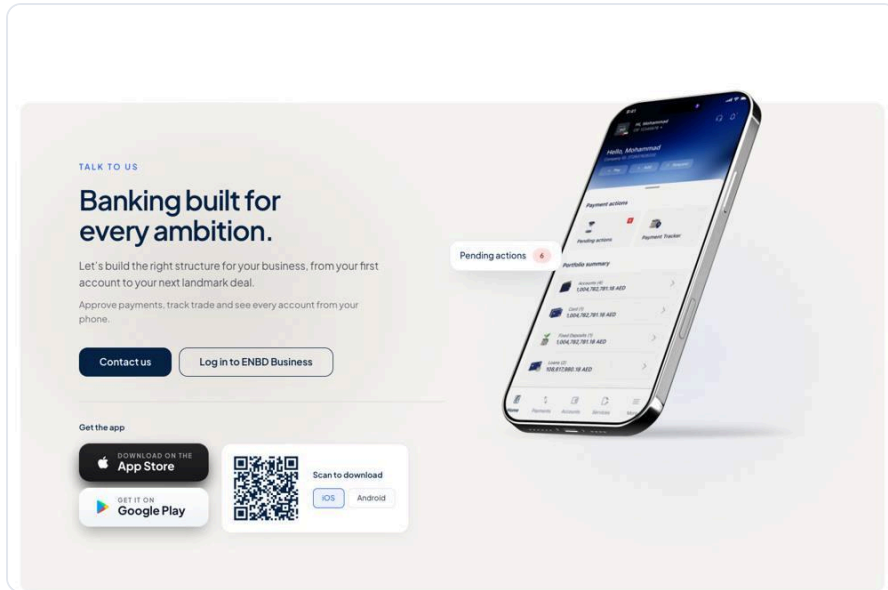

Adapt: Centred text-only band; loses device, QR and store badges.

PARTIAL · Scroll Scenes (Download App) scroll-scenes

Its app-download finale already holds store buttons (aci-btn are reused here).

Adapt: Full pinned scene sequence is far heavier than a closing band.

Library gap: Closing CTA with app-download kit (store badges + QR + device); no static master combines contact CTAs with the store/QR row.

A CONNECTED ECOSYSTEM

Tools that work together, so your
business works smarter.

Connect your ERP and back-office systems
straight to the bank and automate payments
with API Banking.
[Explore API Banking →](#)

Corporate Payments UAE · payments-v1a.html · section 4

Tools that work together, so your business works smarter.

Standalone signpost: eyebrow + H2 left, lead + 'Explore API Banking' text link right, no body content.

One relationship across every market.

DIRECT · Section Header section-header

Identical anatomy: ds-stack eyebrow + title, sh-lead, sh-action, split alignment.

Adapt: Drop the demo card-panel; use sh-action for the link.

Mobile, secure, and
always on.

CLOSE · Proof Points (Side by side) content-block-sidebyside

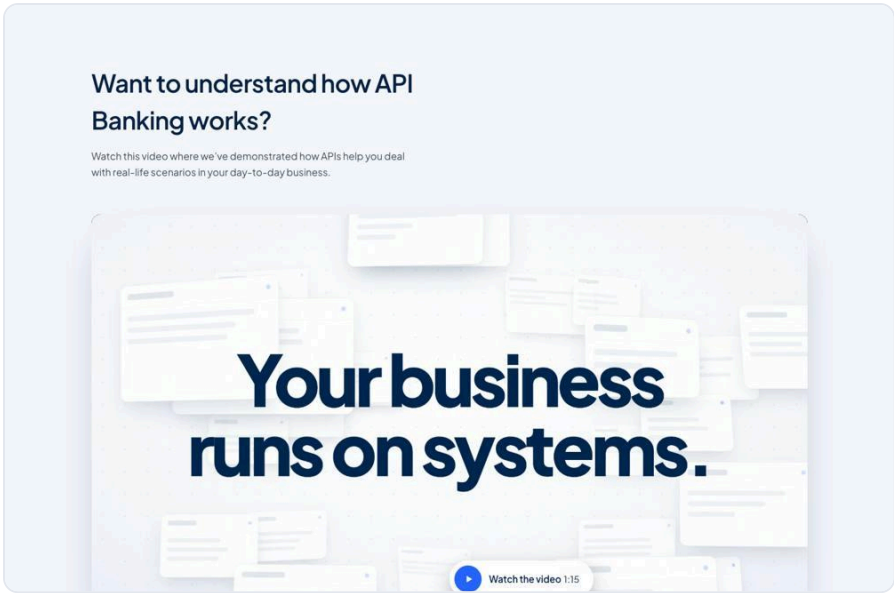

Heading left, paragraph right on a plain surface.

Adapt: No eyebrow or link slot; add them.

PARTIAL · Intro: Side by Side intro-side-by-side

Would give the signpost real body (API capabilities as icon pillars).

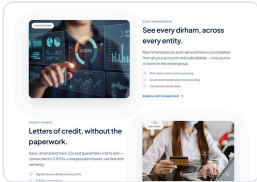

Adapt: Needs 2 to 3 pillar items written; changes the content.

API Banking · api-banking-v1a.html · section 6

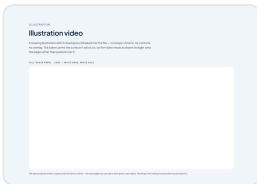

Want to understand how API Banking works?

Video explainer: centred H2 + lead over a poster frame with a play button and duration that plays a narrated 1:15 video.

PARTIAL · Feature Spotlight feature-spotlight

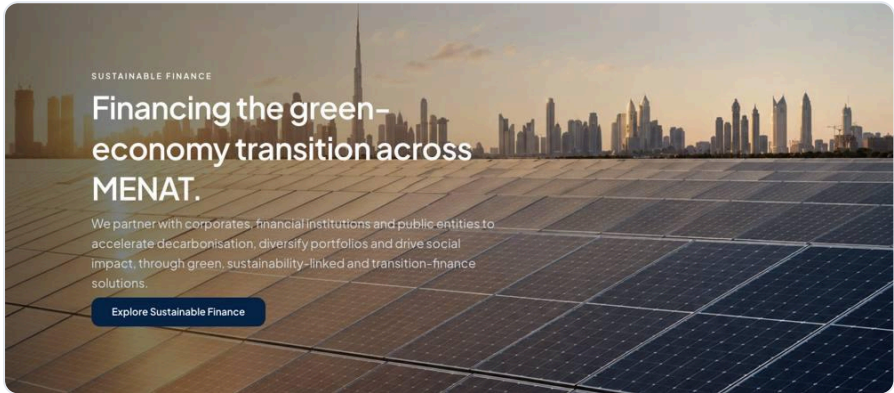

Media beside copy can hold a poster that opens the video.
Adapt: No play/duration control or in-frame playback; needs a link or modal.

PARTIAL · Illustration Video illustration-video

Video in a frame on a section surface.
Adapt: Muted loop with no player chrome; wrong for a narrated explainer.

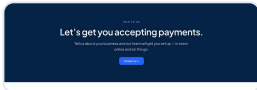

Library gap: Video explainer: header over a poster frame with play button, duration and click-to-play narrated video (behaviour already exists as data-video-explainer in ds.js).

Financing · lending-v1a.html · section 5

Financing the green-economy transition across MENAT.

Full-bleed image band: left-aligned copy and a button over a gradient.

PARTIAL · CTA Band cta-band

Same job (closing band with a call to action) on an image surface.
Adapt: Copy becomes centred; stat tiles have no slot.

Library gap: Image band with left-aligned copy and optional stats. The same pattern appears on 3 pages (lending, markets, insights), so it is a candidate new master.

We have a team that advises clients across the corporate lifecycle, from private fundraising, strategic advisory and pre-IPO capital raising through to IPO execution, follow-on offerings, rights issues, block trades, secondary offerings, post-listing capital markets solutions, tender offers, acquisitions, divestments and strategic transactions.

Equity Capital Markets & Advisory · equity-capital-markets-v1a.html · section 2

We have a team that advises clients across the corporate lifecycle, from private fundraisi

Intro paragraph: one large lead paragraph in a narrow column, no heading, opening the page after the hero.

Mobile, secure, and always on
Workhorse copy block; plain paragraph on a surface.

CLOSE · Proof Points (No numbers) content-block-nonumbers

Workhorse copy block; plain paragraph on a surface.

Adapt: Master has an H2; drop it or lift the first clause as a heading.

Capital,
inmotion.

PARTIAL · Big Statement big-statement

Page-framing statement right after the hero is the same job.

Adapt: Needs the paragraph cut to one bold sentence plus sub-line.

PARTIAL · Intro: Side by Side intro-side-by-side

Intro with lead plus lifecycle pillars would add scanability.

Adapt: Requires writing pillar items (private raise, IPO, follow-ons).

Rankings & Awards · rankings-and-awards.html · section 1

Our Rankings & Awards

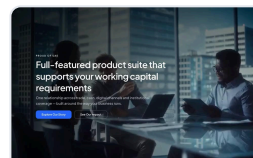

Page hero: background image with overlay, eyebrow, H1 and lead, no CTAs.

DIRECT · Hero: Image (Single) hero-image

Full-bleed image hero with eyebrow, H1, lead anchored bottom-start.

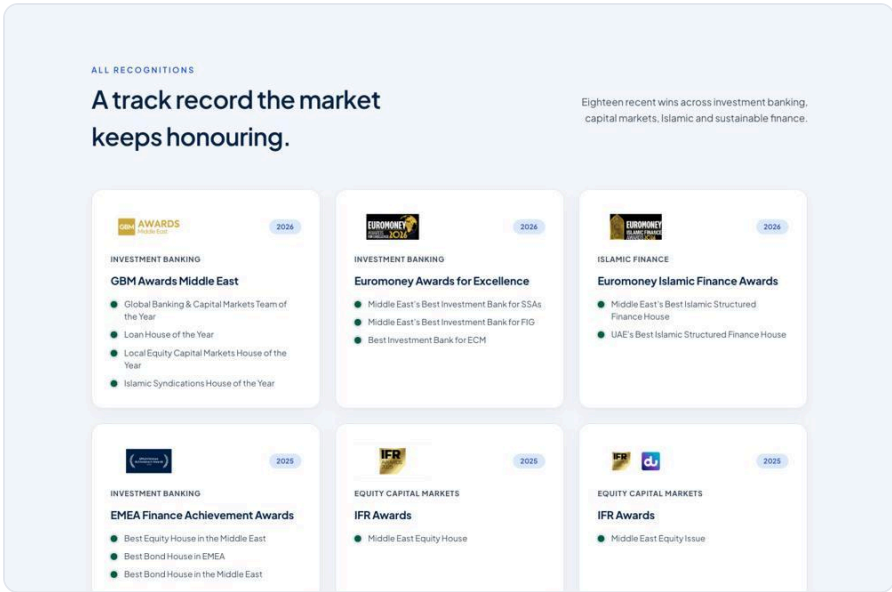

Adapt: Remove the hero-ctas row.

CLOSE · Hero (Single (video)) hero

The cmp-hero shell with image media.

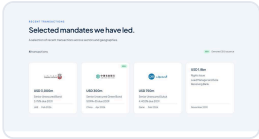

Adapt: Set media to image and drop CTAs.

Rankings & Awards · rankings-and-awards.html · section 2

A track record the market keeps honouring.

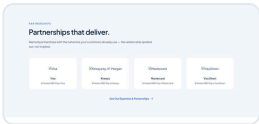

Awards grid: 18 cards each with issuer logo, year badge, category, issuer name and a list of award titles.

CLOSE · Cards: Tombstones (Grid) cards-tombstones

Logo well, headline, detail lines and a meta foot map to issuer logo, issuer, award titles and category with year.

Adapt: Amount slot becomes the issuer name; year moves from a badge to the meta foot (or a badge in the logo well).

PARTIAL · Cards: Partners (Grid) cards-partners

Flat logo tile with name and one line below.

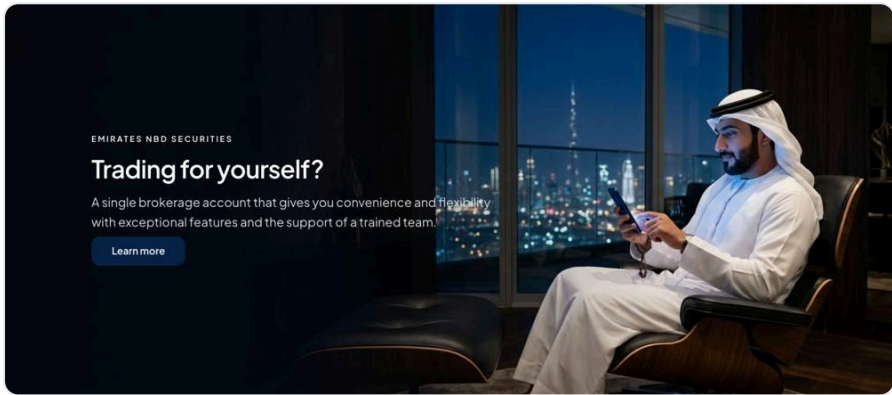

Adapt: Single relationship line cannot hold multiple award titles; no year.

PARTIAL · Solutions & Awards solutions-awards

The only awards-specific master.

Adapt: Logo row only: loses year, issuer, category and titles for 18 entries.

Library gap: Awards grid: no master is purpose-built for award logo + year + issuer + list of titles; a cards-awards composition on the tombstone card would close it.

Global Markets & Treasury · markets-v2.html · section 9

Trading for yourself?

Full-bleed image band: left-aligned copy and a button over a gradient.

PARTIAL · CTA Band cta-band

Same job (closing band with a call to action) on an image surface.

Adapt: Copy becomes centred; stat tiles have no slot.

Library gap: Image band with left-aligned copy and optional stats. The same pattern appears on 3 pages (lending, markets, insights), so it is a candidate new master.

EMIRATES NBD RESEARCH

Sector-specific expertise and analysis.

We pair deep regional expertise with a global perspective, so you can anticipate change and act with confidence across every sector you operate in.

Insights & Research · insights-research.html · section 2

Sector-specific expertise and analysis.

Page intro header: eyebrow + H2 left, lead right, no body; sits above a cards section that has its own header.

One relationship across every market.

DIRECT · Section Header section-header

Same split ds-stack + sh-lead anatomy.

Adapt: Drop the demo card-panel.

Holdo, secure, and always on.

CLOSE · Proof Points (Side by side) content-block-sidebyside

Heading left, paragraph right.

Adapt: Add eyebrow.

PARTIAL · Intro: Side by Side intro-side-by-side

Would give the intro substance (research areas as pillars).

Adapt: Needs pillar content written.

SUCCESS STORY

Another landmark IPO for the DFM and UAE.

We supported the listing of Dubai's largest residential REIT, raising over AED 2bn on the DFM. The IPO priced at the top of the range and achieved 26x oversubscription, driven by strong local momentum and strategic investor engagement.

[Read success story →](#)

AED 2bn+

Raised on the Dubai Financial Market

26x

Oversubscription across the order book

Insights & Research · insights-research.html · section 4

Another landmark IPO for the DFM and UAE.

Full-bleed image band: left-aligned copy and a button over a gradient, with stat tiles.

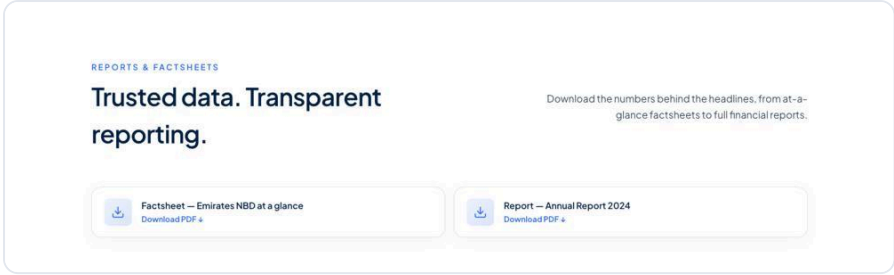

Let's get you accepting payments.

PARTIAL · CTA Band cta-band

Same job (closing band with a call to action) on an image surface.

Adapt: Copy becomes centred; stat tiles have no slot.

Library gap: Image band with left-aligned copy and optional stats. The same pattern appears on 3 pages (lending, markets, insights), so it is a candidate new master.

Media Library · `media-library.html` · section 4

Trusted data. Transparent reporting.

Downloads list: section header over a grid of PDF rows (factsheet, annual report) with icon, name and 'Download PDF'.

DIRECT · Useful Links `useful-links`

Resource rows with title, meta and a download TYPE glyph, optional icon-tiles, in columns.

Adapt: Swap the ds-eyebrow head for the full split section-head; meta becomes 'PDF · size'.

PARTIAL · Cards: List `cards-list`

Hairline row listing.

Adapt: Navigation rows with thumbs; no download semantics.

Form Centre · `form-centre-v2.html` · section 2

Review the terms, then complete the form.

Page intro header: eyebrow + H2 left, lead right, no body; sits directly above a useful-links library that has its own header.

DIRECT · Section Header `section-header`

Same split ds-stack + sh-lead anatomy.

Adapt: Drop the demo card-panel.

CLOSE · Proof Points (Side by side) `content-block-sidebyside`

Heading left, paragraph right.

Adapt: Add eyebrow.

GETTING STARTED

What you need to start trading in the UAE.

To open a Corporate and Institutional Banking or Brokerage account with Emirates NBD Securities, please have the following documents ready.

- ✓ Memorandum & Article of Association and all amendments to it, if any
- ✓ Trade License
- ✓ Commercial Registration
- ✓ Registration with Chamber of Commerce
- ✓ List of current Board Members
- ✓ Authorized signatory letter issued by the company, to open and operate the account with ENBDS
- ✓ List of Shareholders, providing the break-up of shareholders holding more than 5% shares
- ✓ Passports or identity cards of authorized officials
- ✓ All documents executed outside the UAE, notarized and attested by the Ministry of Foreign Affairs of that country and the UAE embassy of that country, and also stamped by the Ministry of Foreign Affairs in the UAE

Form Centre · form-centre-v2.html · section 4

What you need to start trading in the UAE.

Requirements checklist: split header over a nine-item list-check of documents needed to open an account.

One relationship across every market.

CLOSE · Section Header section-header

Header is identical; body slot takes the list-check atom from badges-tags.
Adapt: Compose section-header + list-check; no single master packages it.

Everything your business needs.

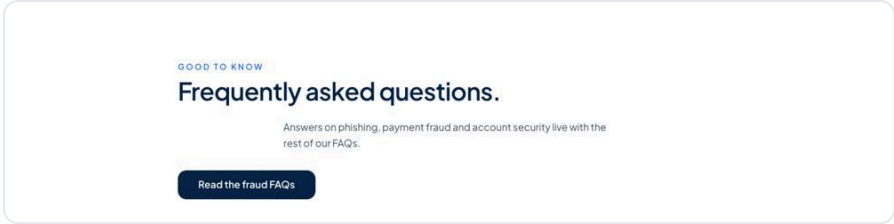

PARTIAL · Accordion accordion

Accordion bodies take a list-check, useful if requirements split by account type.
Adapt: Hides a short list behind a click; only worth it with multiple lists.

PARTIAL · Intro: Side by Side intro-side-by-side

Header left, list right in two columns.
Adapt: Pillars expect icon + title + line, not plain checklist items.

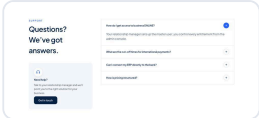

Library gap: Checklist section: header plus a columned list-check (requirements, eligibility, documents) is composed by hand on several pages but has no master.

Fraud Awareness Hub · fraud-awareness-hub-v2.html · section 6

Frequently asked questions.

Signpost to the FAQ page: centred eyebrow, H2, lead and one filled 'Read the fraud FAQs' button, directly before the closing navy CTA band.

CLOSE · **Accordion: FAQ Split** acc-faq

Better answers the user: surface the top 4 to 5 fraud questions inline with the help rail linking to the full FAQs.

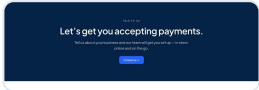

Adapt: Needs a handful of Q&A pairs pulled from the FAQ page.

CLOSE · **Section Header** section-header

Centred eyebrow + title + lead + sh-action matches the current markup.

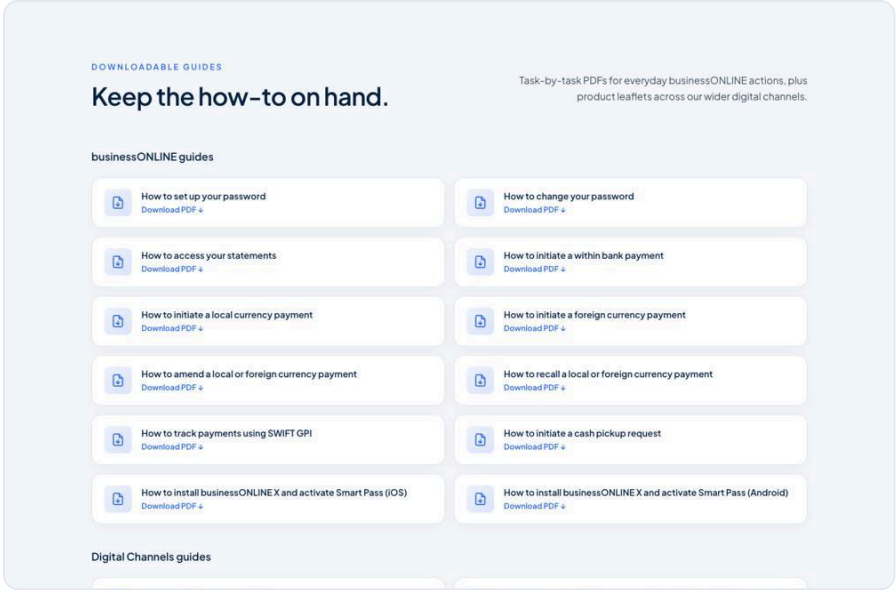

Adapt: Button becomes sh-action (or keep btn-filled in the action slot).

PARTIAL · **CTA Band** cta-band

Same single-CTA job.

Adapt: Would stack two CTA bands back to back with the closing ptf-ctaband; avoid.

Tutorials & Platform Demos · `tutorials-platform-demos-v2.html` · section 4

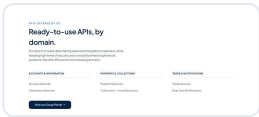

Keep the how-to on hand.

Downloadable guides: split header over two titled groups (businessONLINE guides, Digital Channels guides) of PDF download rows.

DIRECT · Useful Links `useful-links`

Resource rows with download glyph and 'PDF' meta in columns.
Adapt: Two groups: run one instance per group, or use the group title as the head.

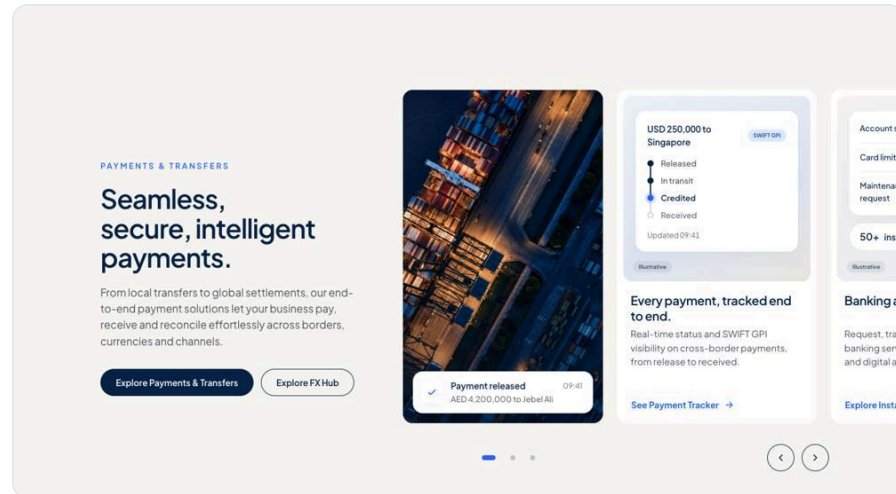

CLOSE · Link Directory `link-directory`

Category headings over link lists is the grouped shape.
Adapt: Text links only; loses the download glyph and meta line.

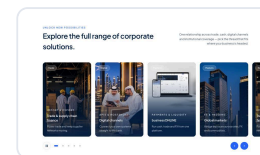

Built from a master, then rebuilt.

These carry a master's component name but their structure has moved far enough that a master update would not fit them. Each needs a decision: re-sync to the master, or accept as custom and drop the master's name.

Corporate & Institutional Banking · cib-home-final.html · section 4

Seamless, secure, intelligent payments.

Master it came from

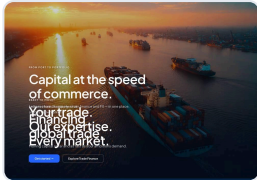

Cards: Thumbnail (Carousel) cards-carousel

- keeps only the carousel track, arrows and dots from the cards carousel
- every slide is a bespoke bento tile (photo with a live payment toast, illustrated tiles, API tile) instead of a media card
- head is a custom left aside with two pill buttons, plus its own drift animation

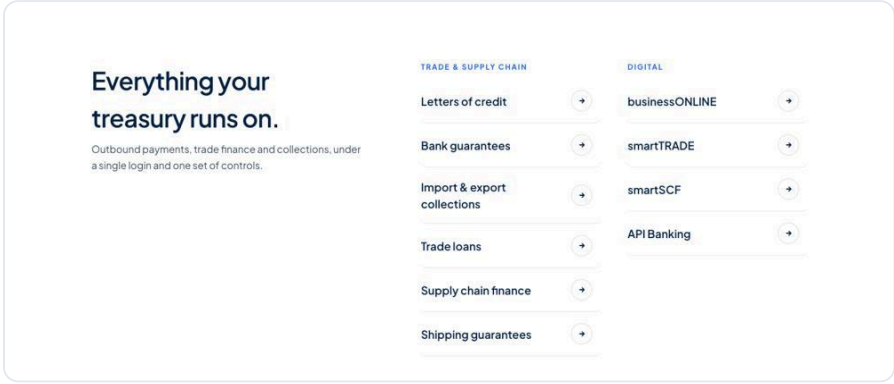

Payments & Trade Finance · payments-trade-finance-v1a.html · section 1

Move money. Finance trade.

Master it came from
Hero: Cinematic (Dark) hero-cinematic-pinned

- scrubbed canvas frames replaced by a video film with still, cloud and white-flash layers
- own phase and line-reveal behaviour instead of the scroll-story-scrub recipe
- three text phases with CTAs kept in spirit, but none of the scin markup remains

Payments & Trade Finance · payments-trade-finance-v1a.html · section 7

Everything your treasury runs on.

Master it came from
Link Directory link-directory

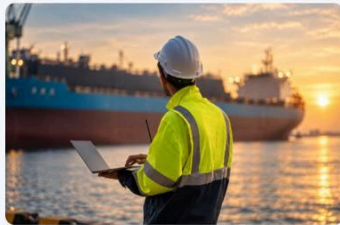

- link columns rebuilt as custom hairline rows with an arrow glyph
- most rows open modals instead of linking to pages
- bottom CTA button dropped and eyebrow removed

THE DIFFERENCE

Less paper, less waiting, more control.

Fewer forms to sign, fewer calls to make, and a clear view of everything you hold.

- ✓ Paperless from request to closure
- ✓ Faster turnaround on issuance and amendments
- ✓ Fewer manual updates and follow-ups
- ✓ Full transparency over every guarantee you hold

smartGUARANTEES · smartguarantees-v1a.html · section 5

Less paper, less waiting, more control.

Made secure, and
simple too

Master it came from
Proof Points (Side by side)

- heading moves above as a stacked section head with eyebrow and lede
- side-by-side body becomes a checklist beside an image
- no longer the heading-left, paragraph-right copy block

THE CONNECTIVITY MODEL

Built on SCORE, the Standardised Corporate Environment.

SWIFT for Corporates runs on SCORE: a closed user group administered by SWIFT, where your business connects once and reaches your banks through a single channel.

One connection, many banks

Join once and message any bank in the group through the same channel, instead of a separate link per bank.

Administered by SWIFT

SCORE is a closed user group run by SWIFT under a common framework, so rules and security stay consistent across banks.

Runs SWIFT FIN and FileACT

Send single standardised messages over SWIFT FIN, and files or batches over SWIFT FileACT, through the one environment.

Standardised messages

Instructions use recognised formats, MT and MX (ISO 20022), so they move cleanly between your systems and the banks.

In plain terms: one secure doorway to all your banks, run to a common standard, instead of a different door for each.

SWIFT for Corporates · swift-corporates-v1a.html · section 4

Built on SCORE, the Standardised Corporate Environment.

Made secure, and
simple too

Master it came from
Proof Points (Side by side)

- single column on navy instead of heading-left, copy-right
- adds an icon list of four connectivity points
- adds an 'In plain terms' summary paragraph

LIQUIDITY AND DISTRIBUTION

One of MENAT's deepest liquidity platforms.

As part of Emirates NBD Group, we draw on one of the region's largest Private Banking, Treasury and Asset Management platforms. That deep, in-house liquidity base lets us anchor demand and price with confidence on every transaction we lead.

Talk to our DCM team

USD 2bn

GCC paper traded monthly, with active market-making and secondary support

PART OF THE EMIRATES NBD GROUP PLATFORM

Debt Capital Markets · debt-capital-markets-v1a.html · section 5

One of MENAT's deepest liquidity platforms.

Mobile, secure, and always on

Price, trade and settle from one connected platform, with the same institutional standard behind every trade.

Master it came from
Proof Points (Side by side) content-block-sidebyside

- left column becomes eyebrow, heading, copy and a button
- right column becomes a count-up headline figure plus a greyscale logo row
- no longer a plain heading and paragraph copy block

DIGITAL FINANCE

Technology-enabled innovation, across the financing lifecycle.

Digital & Sustainable Finance provides integrated digital and sustainable finance solutions, combining technology-enabled innovation with ESG expertise to support clients' strategic, financing and transition objectives. The team works with every Emirates NBD Capital product line, so a digital or sustainable structure can be brought into a bond, a Sukuk, a syndicated facility or an equity transaction.

Talk to the team

Digital & Sustainable Finance · digital-sustainable-finance-v1a.html · section 5

Technology-enabled innovation, across the financing lifecycle.

Mobile, secure, and always on

Price, trade and settle from one connected platform, with the same institutional standard behind every trade.

Master it came from
Proof Points (Side by side) content-block-sidebyside

- left column becomes eyebrow, heading, copy and a button
- right column becomes a framed image
- effectively a text-plus-image split, not the copy block

THE PLATFORM

Institutional-grade execution, anywhere.

Price, trade and settle from one connected platform, with the same institutional standard behind every trade.

One login

Every asset class, price feed and hedge in a single workspace, on desk or on mobile.

Always on

Round-the-clock access, so you can act the moment a market moves rather than wait for the desk to open.

Straight through

A 98% straight-through processing rate means fewer breaks and faster, cleaner settlement.

Execution Capabilities · execution-capabilities-v2.html · section 4

Institutional-grade execution, anywhere.

Mobile, secure, and always on

Price, trade and settle from one connected platform, with the same institutional standard behind every trade.

Master it came from
Proof Points (Side by side) content-block-sidebyside

- split section header on navy replaces the heading-left copy block
- adds a three-up list of title and description feature points
- nothing of the side-by-side layout remains

Every section, in page order.

Site header and footer are omitted (every page uses the standard pair). For instances with overrides, the note lists the structural parts added or dropped compared with the master.
