WHOLE BANKING, FINAL · COMPONENT AUDIT · ROUND 2

Which master components each page uses, and where it has drifted.

Every section on the 81 pages listed on start-here.html, checked against the 125 master components in the library (index.html).

81	561	97%	8	33
pages	content sections	built from a master	custom sections	masters never used

12 October 2026 (re-run of the 9 October audit)

Prepared by Olivia, Mason and Sophia

SUMMARY

Most of the site is built from the library. The drift is concentrated.

431
Instance 77%
Same structure as its master; only content and the master's documented options differ.

114
Instance + overrides 20%
Built from a master, with parts edited on this page that the master does not offer as options.

8
Detached 1%
Started from a master but restructured; master updates will not fit it.

8
Custom 1%
Not built from any master.

The finding that matters most

Pages do not hold a live link to their master. Each instance is a pasted copy of the master's markup. That means only part of a master change reaches the pages:

- **Styling and behaviour do flow.** Every page loads the same ds.css and ds.js, so a change to a master's look or animation reaches all its instances.
- **Structure does not flow.** Adding a slot, swapping a button type or reordering a master changes nothing on the 81 pages. Each instance keeps the markup it was pasted with.

So "Instance + overrides" and "Detached" sections are where a future master change will either not appear or break. That is the list to fix first.

New since 9 October: 83 sections are now tagged `data-master`, so every instance of those masters can be found instantly when a master's structure changes.

How each section was judged

Instance	Matches the master. Content, images and the master's documented options are ignored, like variant properties in Figma.
Instance + overrides	That master, with page-only edits it does not offer as options.
Detached	Carries the master's name but has been rebuilt. Mason reviewed every one by hand.
Custom	Not built from any master. Sophia matched each to the masters that could replace it.

Site header, footer and modals (171 sections) are counted separately. Text, images and layout utilities were ignored when comparing.

SINCE 9 OCTOBER

What changed after the first audit.

431
Instance was 349 (+82)

114
Instance + overrides was 183 (-69)

8
Detached was 8 (0)

8
Custom was 21 (-13)

Tagged instances (data-master), checked by Olivia

Each was compared with its master block, text and images ignored. Allowed overrides: content, links, media, documented options.

PAGE	#	SECTION	MASTER	STATUS	OLIVIA'S NOTE
cib-home-final.html	3	One relationship. The whole bank.	**Media Split, Live Chat**	Instance	Clean instance: only content differs.
cib-home-final.html	5	Integrated trade finance, end to end.	**Expand Duo**	Instance	Clean instance: only content differs.
cib-home-final.html	6	Raise capital with the region's leading IPO house.	**Film Stats Band**	Instance	Clean instance: only content differs.
cib-home-final.html	7	Corporate lending, built around your needs.	**Tabs - Desk reel**	Instance	Clean instance: only content differs.
cib-home-final.html	8	Landmark deals. And the clients behind them.	**Cards: Case Study (Carousel)**	Instance	Converted 12 Oct from the retired article-card carousel. Documented options: 3 columns; eyebrow and lead dropped.
cib-home-final.html	9	Principled finance. Designed for growth.	**Bento: Feature + Research**	Instance	Clean instance: only content differs.
cib-home-final.html	11	Banking built for every ambition.	**App Download Panel**	Instance	Clean instance: only content differs.
payments-trade-finance-v1a.html	8	The full picture, beyond payments and trade.	**Tabs - Desk reel**	Instance	Documented options: soft ground, single CTA, 4 desks, per-desk link opening Investment Banking in a new tab.

PAGE	#	SECTION	MASTER	STATUS	OLIVIA'S NOTE
payments-v1a.html	3	Payments, reimagined.	**Feature Spotlight**	Instance	Re-synced 12 Oct: styled arrow link and list inks restored. One row (rows repeat).
payments-v1a.html	4	Tools that work together, so your business works smarter.	**Section Header**	Instance	Split alignment with lead + action in .sh-aside.
emirates-nbd-pay-v1a.html	3	E-commerce Payment Solutions	**Feature Scroll Story (Mockup right)**	Instance	Documented options (12 Oct): lean chapters, #ecom anchor.
emirates-nbd-pay-v1a.html	4	Point of Sale (POS) Solutions	**Feature Scroll Story (Mockup left)**	Instance	Documented options (12 Oct): lean chapters, 3 chapters, #pos anchor.
digital-solutions-v1a.html	4	ENBD Business	**Hero: Text Fade (Dark)**	Instance	Documented options (12 Oct): left aligned, one right caption with phase scrim, highlights rows, glass pill buttons.
digital-solutions-v1a.html	5	The digital channels your business runs on	**Scroll Showcase (Media left)**	Instance	Clean instance: nine channels, #channels anchor.
businessonline-x-v2.html	1	Banking on the move.	**Scroll Story: Video (Dark)**	Instance	Documented options: image-sequence source (box-v2 frames), light ground, opener with scroll cue, left and split captions, closing button. Overrides: content only.
businessonline-x-v2.html	3	Everyday banking, done digitally	**Feature Spotlight**	Instance	One row (reversed), documented option: no tick list. Re-synced 12 Oct: styled arrow link, master body size.
businessonline-x-v2.html	4	Track every payment, end to end	**Feature Spotlight**	Instance	One row, documented option: no tick list. Re-synced 12 Oct: styled arrow link, master body size.
businessonline-x-v2.html	7	Useful links ENBD Business learning guide KYC support portal	**Useful Links**	Instance	Re-synced 12 Oct: title and glyph inks restored.
smarttrade-v1a.html	10	Frequently asked questions.	**Accordion**	Instance	Lead dropped (optional), so the header is left aligned. Re-synced 12 Oct: master heading and icon inks; the inline contact link uses the library inline-link style. Content only.
smartscf-v1a.html	6	Plugs into how you already work.	**Bento: Spotlight**	Instance	Lead dropped (optional). Re-synced 12 Oct: the call-to-action tile is navy with an outline, as in the master. Content and tile spans only.
smartguarantees-v1a.html	2	The digital home for your guarantees.	**Section Header**	Instance	Was labelled Big Statement but only ever held a header. Content only; the demo card-panel is dropped.

PAGE	#	SECTION	MASTER	STATUS	OLIVIA'S NOTE
smartguarantees-v1a.html	3	Covering all your needs of a guarantee, in one place.	**Intro: Side by Side**	Instance	Documented option: split header above, media tile on the left. #how-it-works anchor. Content only.
smartguarantees-v1a.html	4	Cover for every guarantee you issue or receive.	**Cards: Kicker (Grid)**	Instance	Documented options: kicker dropped, 4 columns, #coverage anchor.
smartguarantees-v1a.html	6	A public-sector deployment.	**Proof Points (Side by side)**	Instance	Re-synced 12 Oct: headline left, copy right. Documented options: eyebrow, source line, navy ground, #proof anchor. Content only.
smartguarantees-v1a.html	7	Connected to the rest of your trade toolkit.	**Cards: Icon Linked (Grid)**	Instance	Documented option: badge instead of icon. #ecosystem anchor. Content only.
smart-cdm-v1a.html	2	Cash is slow, heavy, and easy to lose track of.	**Big Statement**	Instance	Documented option: compact headline. Content only.
smart-cdm-v1a.html	3	So we brought the bank to you.	**Cards: Kicker (Grid)**	Instance	Documented options: navy ground, clear card surface, 4 columns, #demo anchor.
smart-cdm-v1a.html	4	Everything the machine does, in plain terms.	**Cards: Number (Grid)**	Instance	Documented option: footer category chip. #facts anchor.
api-banking-v1a.html	3	What is API Banking	**Feature Scroll Story (Mockup right)**	Instance	Documented options (12 Oct): image ground (photo + navy scrim, title-scene overlay), lean chapters with number-only kickers. Was the page-only api-dark / api-bg styling. Content only.
api-banking-v1a.html	4	API Security Controls	**Bento: Spotlight**	Instance	Documented options: all-feature tile mix, no eyebrow. Content only.
payment-tracker-v1a.html	4	Follow every stage, in real time	**How It Works: Steps**	Instance	Documented options: lean steps, no closing button, no intro line. Content only.
payment-tracker-v1a.html	5	Cross-border payments ride the Swift gpi network, reaching b	**Statement + Stats**	Instance	Documented options: live tracker card, source footnote. Re-synced 12 Oct: ink-primary on the figures. Content only.
instant-banking-services-v1a.html	2	Do so much more	**Cards: Thumbnail (Carousel)**	Instance	Documented options: manual mode, static cards without chips, header side link, #value anchor.
instant-banking-services-v1a.html	3	Track your payments on businessONLINE	**Feature Spotlight**	Instance	Re-synced 12 Oct: styled arrow link, list inks.
instant-banking-services-v1a.html	4	Everything you can do	**Accordion**	Instance	Documented options: subtitled row heads, bullet-list bodies, #services anchor. Re-synced 12 Oct: master header structure, icon ink.

PAGE	#	SECTION	MASTER	STATUS	OLIVIA'S NOTE
virtual-accounts-v1a.html	2	One account, every payer, no idea who is who.	**Big Statement**	Instance	Documented option: compact headline. Content only.
swift-corporates-v1a.html	2	Many banks should not mean many portals.	**Big Statement**	Instance	Documented options: compact headline, no closing link.
swift-corporates-v1a.html	3	What SWIFT for Corporates gives you.	**Cards: Boxed (Grid)**	Instance	Documented options: static cards, titled list bodies, #facts anchor. Re-synced 12 Oct: surface-white on each card.
lending-v1a.html	2	The region's strongest balance sheet, behind your growth.	**Stats: Row**	Instance	Documented options: header above, static figures, no captions. Re-synced 12 Oct: ink-primary on the figures.
lending-v1a.html	6	Intelligence, stability and partnership.	**Cards: Icon Linked (Carousel)**	Instance	Documented options: static cards, manual mode, closing button row. Content only.
lending-v1a.html	7	Our first aircraft finance lease.	**Feature Spotlight**	Instance	Documented options: navy ground, no corner tags, no tick lists. Re-synced 12 Oct: styled arrow links.
industry-specific-finance-v1a.html	3	Our areas of expertise	**Cards: Thumbnail (Grid)**	Instance	Documented options: pop-up cards, label-only cards, navy overlay, 4 columns, #sectors anchor.
sustainable-finance-v1a.html	3	Backing the region's transition.	**Hero: Editorial (Single)**	Instance	Documented option: 4-column grid stat strip. Re-synced 12 Oct: ink-white on the figures. #commitment anchor.
sustainable-finance-v1a.html	6	Working together	**Cards: Number (Grid)**	Instance	Documented option: clear card surface. Content only.
sustainable-finance-v1a.html	9	Built on a published, externally-reviewed framework.	**Proof Points (Side by side)**	Instance	Documented options: eyebrow, h2 size, button row.
investment-banking-v2.html	2	Ranked among the region's leading arrangers.	**Bento: Spotlight**	Instance	Documented options: static rankings, extra icon tiles, source footnote. Content only.
investment-banking-v2.html	5	The Group's investment banking house.	**Hero: Editorial (Single)**	Instance	Documented options: mid-page band, video media, extra washes, static figures, button row. Content only.
investment-banking-v1a.html	2	Ranked among the region's leading arrangers.	**Bento: Spotlight**	Instance	Documented options: static rankings, extra icon tiles, source footnote. Content only.
investment-banking-v1a.html	3	Solutions tailored to every ambition.	**Bento: Spotlight**	Instance	Documented options: text-only segment layout. Content only.

PAGE	#	SECTION	MASTER	STATUS	OLIVIA'S NOTE
global-loan-solutions-v1a.html	3	Ranked #1 where it matters most.	**Big Statement**	Instance	Documented options: rank strip, sources note. Re-synced 12 Oct: ink-primary on the headline.
global-loan-solutions-v1a.html	4	Capital and coverage, wherever your ambition takes you.	**World Map - V2**	Instance	Documented options: eyebrow on, stats row of 3, navy ground.
global-loan-solutions-v1a.html	7	A comprehensive suite, built around you.	**Cards: Plain (Scroll)**	Instance	Converted 12 Oct from Cards: Boxed (these are plain tiles). Documented options: static cards, 2 columns, #solutions anchor.
global-loan-solutions-v1a.html	8	Trusted partners, proven results.	**Bento: Expand**	Instance	Documented options: partner logo strip, closing button, no lead. Re-synced 12 Oct: master header structure.
global-loan-solutions-v1a.html	11	Latest transactions.	**Cards: Tombstones (Grid)**	Instance	Re-synced 12 Oct: date moved into the master meta-dot foot. Documented options: two header links, date-only foot, no legend row.
agency-v1a.html	2	Integrity and independence, at every table.	**Proof Points (Side by side)**	Instance	Documented options: eyebrow, h2 size, #approach anchor. Re-synced 12 Oct: master wrapper structure.
agency-v1a.html	3	Trusted with the most complex mandates.	**Big Statement**	Instance	Documented options: figure strip with footnote, wide header column. Re-synced 12 Oct: headline ink.
agency-v1a.html	5	Supporting your growth, in every market.	**World Map - V2**	Instance	Documented options: eyebrow on, stats row of 3, navy ground.
agency-v1a.html	7	Latest transactions.	**Cards: Tombstones (Grid)**	Instance	Documented options: header see-all link, no foot (no date or place on these deals), no legend row. Re-synced 12 Oct: header link is an sh-action.
digital-sustainable-finance-v1a.html	4	From framework to execution.	**Cards: Kicker (Grid)**	Instance	Documented options: compound kickers, clear card surface, 4 columns. Content only.
digital-sustainable-finance-v1a.html	6	The team behind Digital & Sustainable Finance.	**Quote Band**	Instance	Documented option: specialist spotlight. Content only.
custody-v1a.html	4	Supporting your ambition, in every market.	**World Map - V2**	Instance	Documented options: eyebrow on, counter (12 markets), navy ground.
rankings-and-awards.html	1	Our Rankings & Awards	**Hero: Image (Single)**	Instance + overrides	Minor drift: the hero-ctas row is dropped but not documented as optional. Fix: mark it optional in the hero dossier.
rankings-and-awards.html	2	A track record the market keeps honouring.	**Cards: Awards (Grid)**	Instance	Overrides: content only (header copy, all 18 award cards). Styling comes from ds.css, so master changes reach this instance.

PAGE	#	SECTION	MASTER	STATUS	OLIVIA'S NOTE
`rankings-and-awards.html`	3	Let's move forward, together.	**CTA Band**	Instance	Clean instance: only content differs.
`insights-research.html`	2	Sector-specific expertise and analysis.	**Section Header**	Instance	Split alignment, demo panel dropped (both documented).
`media-library.html`	4	Trusted data. Transparent reporting.	**Useful Links**	Instance	Documented options: 2 columns, section spacing, split header above the grid, #reports anchor.
`contact-us-v3.html`	4	Five core markets. One connected network.	**World Map - V2**	Instance	Documented options: eyebrow on, counter (5 core markets), navy ground, #locations anchor.
`form-centre-v2.html`	2	Review the terms, then complete the form.	**Section Header**	Instance	Split alignment, demo panel dropped (both documented).
`tutorials-platform-demos-v2.html`	4	Keep the how-to on hand.	**Useful Links**	Instance	Documented options: 2 columns, section spacing, split header, grouped lists, #guides anchor.

Fixes found in the masters themselves

- Four masters use root-absolute asset paths (`/assets/...`): media-chat-split, film-stats-band, app-download-panel, hero-image. Their instances already use relative paths.
- The hero-image master's demo lead contains an em-dash, as do several block header comments.
- The tabs-desk dossier still describes the old inline-script version.
- Still undocumented: the optional hero-ctas row (hero-image). Fixed on 12 Oct: tabs-desk documents surface-soft and the optional secondary link; useful-links and World Map - V2 document anchor ids on instances.

Next conversions

- **9 support pages** (businessONLINE, smartTRADE, smartSCF, smartGUARANTEES, smartCDM, API Banking, Emirates NBD Pay, FX Hub, SWIFT) carry the same "Keep the how-to on hand." download list that tutorials had. Each can become a Useful Links instance, as tutorials did.
- **Video explainer** (api-banking-v1a): the runtime exists but has no master; codify it.
- **Masters upgraded this round:** World Map - V2 left its inline style and script (now in ds.css / ds.js, with Eyebrow and Stats options); Cards: Awards was added.

MASTER USAGE

Which masters the pages lean on.

Building blocks such as buttons, typography, tables and payment mock-ups are used inside sections rather than as sections, so they are not part of this count: Checkout Card, POS Terminal, Phone Checkout, Payment Link, Chat Pay Invite, Browser Checkout, API Request, Form Elements, Breadcrumb, Pagination, Buttons, Typography, Icon Tiles & Numbers, Card Surfaces, Illustration Video, Lottie, Badges, Tags & Lists, Toast, Table, Empty State.

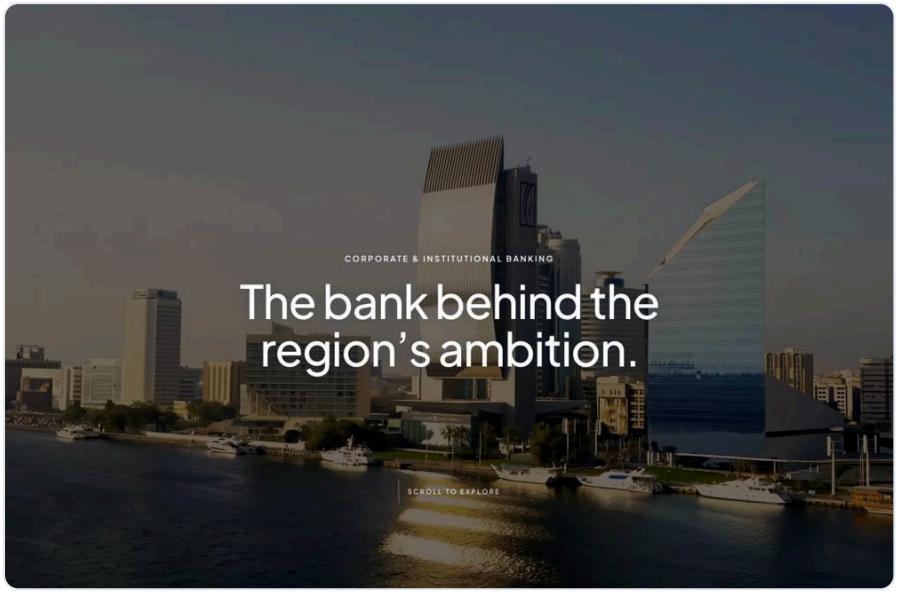

Pages using components outside the gallery

Superseded masters still in use: `article-card` (1 pages).

CUSTOM SECTIONS · 8

Sections not built from a master, and what could replace them.

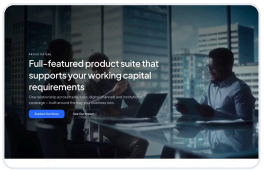

Each one with Sophia's recommended masters, ranked. DIRECT drops in with the same content shape, CLOSE needs small reshaping, PARTIAL covers the main job but loses something.

Corporate & Institutional Banking · `cib-home-final.html` · section 1

The bank behind the region’s ambition.

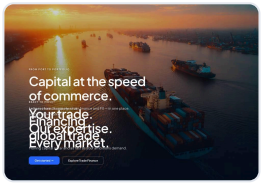

Home-page opener film: full-bleed world plate with H1 and scroll cue that hands off into a 'One bank. Multiple ways to grow.' statement row of solution tiles (a phone render lands in the first tile), with prev/next arrows.

PARTIAL · **Hero (Single (video))** `hero`
Carries the opener job: video media, eyebrow, H1, pause control.
Adapt: Loses the world-plate parallax, side captions and the scroll handoff into the tile row.

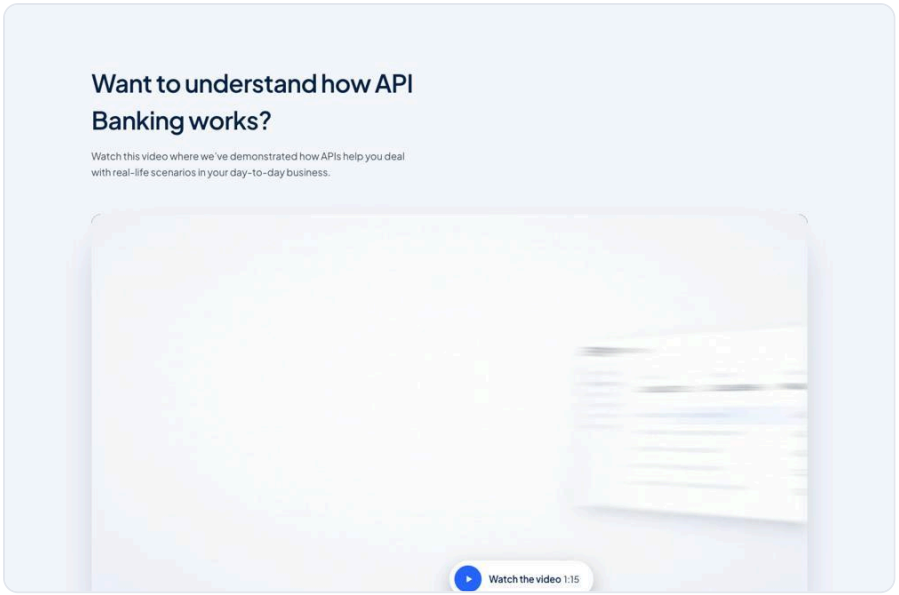

PARTIAL · **Cards: Tiles (Aside carousel)** `cards-tiles-aside-carousel`
Head-aside carousel of full-bleed image tiles matches the statement row (head left, tiles right, arrows).
Adapt: Would be a separate section after the hero; the phone landing in the Digital tile is lost.

PARTIAL · **Hero: Cinematic (Dark)** `hero-cinematic-pinned`
Pinned scrollytelling opener with phased text is the nearest master for the scroll-driven reveal.
Adapt: Frame-sequence engine, not a video plate; no tile row.

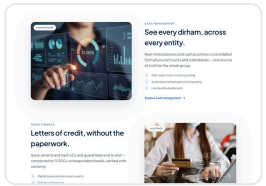

> **Keep custom:** The hero-to-card-row hand-off is the home page's signature and exists only here, so it is not a master candidate. If it ever has to be decoupled: Hero (single video) + cards-tiles-aside-carousel, losing the dock motion.

API Banking · `api-banking-v1a.html` · section 6

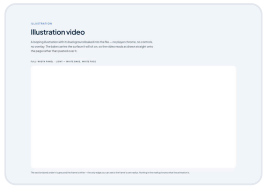

Want to understand how API Banking works?

Video explainer: centred H2 + lead over a poster frame with a play button and duration that plays a narrated 1:15 video.

PARTIAL · **Feature Spotlight** `feature-spotlight`

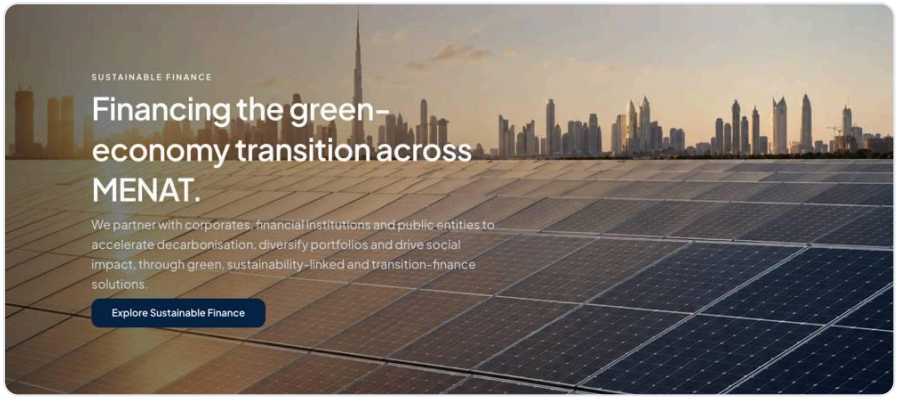

Media beside copy can hold a poster that opens the video.
Adapt: No play/duration control or in-frame playback; needs a link or modal.

PARTIAL · **Illustration Video** `illustration-video`

Video in a frame on a section surface.
Adapt: Muted loop with no player chrome; wrong for a narrated explainer.

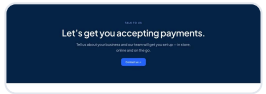

Library gap: The runtime already has a video explainer (cmp-video-explainer: 19 ds.css rules and a ds.js behaviour) but no block, dossier or gallery entry. Codify it as blocks/video-explainer.html so other product pages can reuse it.

Financing · `lending-v1a.html` · section 5

Financing the green-economy transition across MENAT.

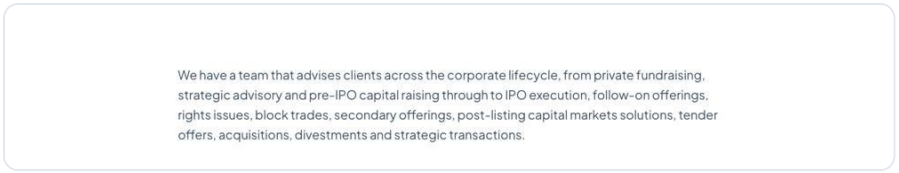

Full-bleed image band: left-aligned copy and a button over a gradient.

PARTIAL · **CTA Band** `cta-band`

Same job (closing band with a call to action) on an image surface.
Adapt: Copy becomes centred; stat tiles have no slot.

Library gap: Image band with left-aligned copy and optional stats. The same pattern appears on 3 pages (lending, markets, insights), so it is a candidate new master.

Equity Capital Markets & Advisory · `equity-capital-markets-v1a.html` · section 2

We have a team that advises clients across the corporate lifecycle, from private fundraisi

Intro paragraph: one large lead paragraph in a narrow column, no heading, opening the page after the hero.

CLOSE · **Proof Points (Side by side)** `content-block-sidebyside`

A heading-less wall of text does not scan; a short H2 on the left with the paragraph on the right does.

Adapt: Add a short H2 (content decision for Ram); keep surface-white.

CLOSE · **Proof Points (No numbers)** `content-block-nonumbers`

Workhorse copy block; plain paragraph on a surface.

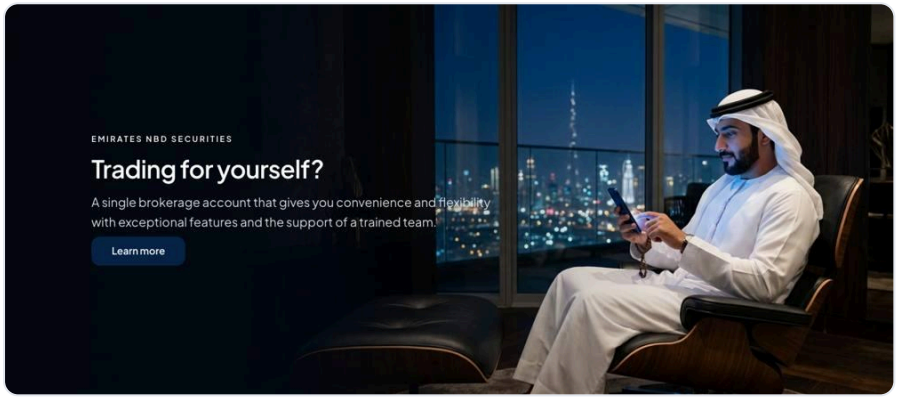

Adapt: Master has an H2; drop it or lift the first clause as a heading.

PARTIAL · **Big Statement** `big-statement`

Page-framing statement right after the hero is the same job.

Adapt: Needs the paragraph cut to one bold sentence plus sub-line.

Global Markets & Treasury · `markets-v2.html` · section 9

Trading for yourself?

Full-bleed image band: left-aligned copy and a button over a gradient.

PARTIAL · **CTA Band** `cta-band`

Same job (closing band with a call to action) on an image surface.

Adapt: Copy becomes centred; stat tiles have no slot.

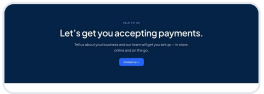

Library gap: Image band with left-aligned copy and optional stats. The same pattern appears on 3 pages (lending, markets, insights), so it is a candidate new master.

Insights & Research · `insights-research.html` · section 4

Another landmark IPO for the DFM and UAE.

Full-bleed image band: left-aligned copy and a button over a gradient, with stat tiles.

PARTIAL · **CTA Band** `cta-band`

Same job (closing band with a call to action) on an image surface.
Adapt: Copy becomes centred; stat tiles have no slot.

Library gap: Image band with left-aligned copy and optional stats. The same pattern appears on 3 pages (lending, markets, insights), so it is a candidate new master.

Form Centre · `form-centre-v2.html` · section 4

What you need to start trading in the UAE.

Requirements checklist: split header over a nine-item list-check of documents needed to open an account.

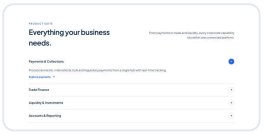

CLOSE · **Proof Points (Side by side)** `content-block-sidebyside`

Eyebrow, H2 and lead in the left column; the nine documents as a list-check on the right, so the checklist sits beside its context and the scroll shortens.
Adapt: Right-column paragraph becomes ul.list-check.

CLOSE · **Section Header** `section-header`

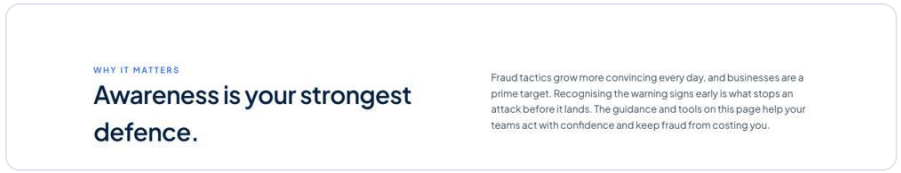

Header is identical; body slot takes the list-check atom from badges-tags.
Adapt: Compose section-header + list-check; no single master packages it.

PARTIAL · **Accordion** `acc`

Accordion bodies take a list-check, useful if requirements split by account type.
Adapt: Hides a short list behind a click; only worth it with multiple lists.

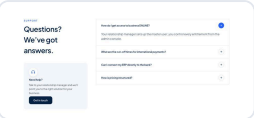

Library gap: Checklist section: header plus a columned list-check (requirements, eligibility, documents) is composed by hand on several pages but has no master.

Fraud Awareness Hub · `fraud-awareness-hub-v2.html` · section 6

Frequently asked questions.

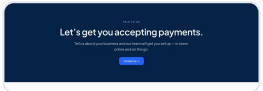

Signpost to the FAQ page: centred eyebrow, H2, lead and one filled 'Read the fraud FAQs' button, directly before the closing navy CTA band.

CLOSE · **Accordion: FAQ Split** `acc-faq`
Better answers the user: surface the top 4 to 5 fraud questions inline with the help rail linking to the full FAQs.
Adapt: Needs a handful of Q&A pairs pulled from the FAQ page.

CLOSE · **Section Header** `section-header`
Centred eyebrow + title + lead + sh-action matches the current markup.
Adapt: Button becomes sh-action (or keep btn-filled in the action slot).

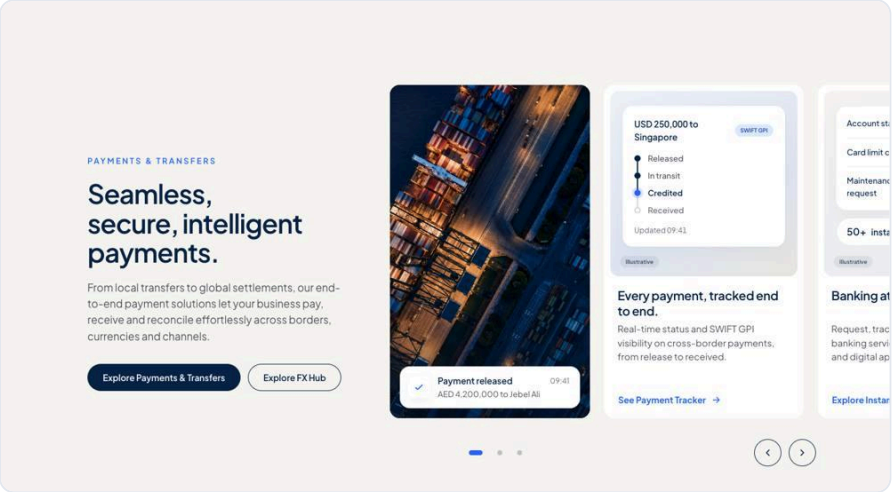

PARTIAL · **CTA Band** `cta-band`
Same single-CTA job.
Adapt: Would stack two CTA bands back to back with the closing ptf-ctaband; avoid.

DETACHED INSTANCES · 8

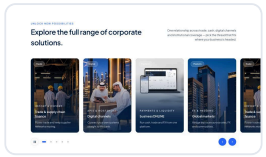

Built from a master, then rebuilt.

These carry a master's component name but their structure has moved far enough that a master update would not fit them. Each needs a decision: re-sync to the master, or accept as custom and drop the master's name.

Corporate & Institutional Banking · `cib-home-final.html` · section 4

Seamless, secure, intelligent payments.

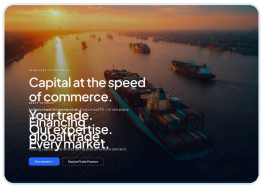

Master it came from
Cards: Thumbnail (Carousel) `cards-carousel`

- keeps only the carousel track, arrows and dots from the cards carousel
- every slide is a bespoke bento tile (photo with a live payment toast, illustrated tiles, API tile) instead of a media card
- head is a custom left aside with two pill buttons, plus its own drift animation

Payments & Trade Finance · `payments-trade-finance-v1a.html` · section 1

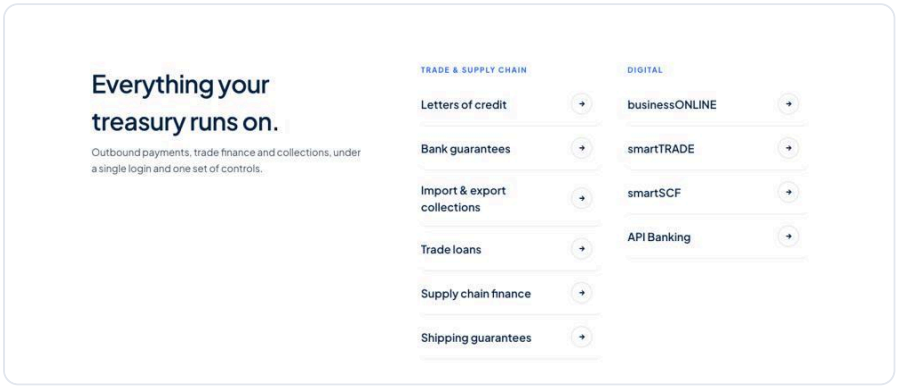

Move money. Finance trade.

Master it came from
Hero: Cinematic (Dark) `hero-cinematic-pinned`

- scrubbed canvas frames replaced by a video film with still, cloud and white-flash layers
- own phase and line-reveal behaviour instead of the scroll-story-scrub recipe
- three text phases with CTAs kept in spirit, but none of the scin markup remains

---

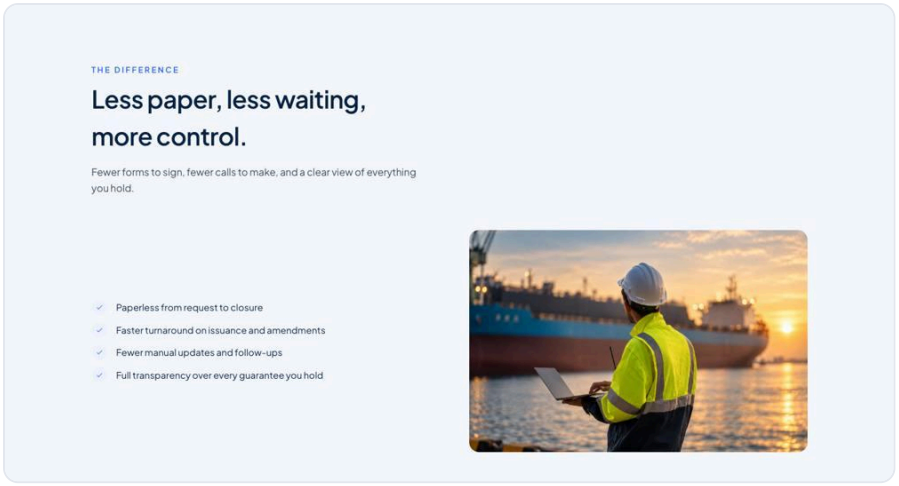

Payments & Trade Finance · `payments-trade-finance-v1a.html` · section 7

Everything your treasury runs on.

Master it came from
Link Directory `link-directory`

- link columns rebuilt as custom hairline rows with an arrow glyph
- most rows open modals instead of linking to pages
- bottom CTA button dropped and eyebrow removed

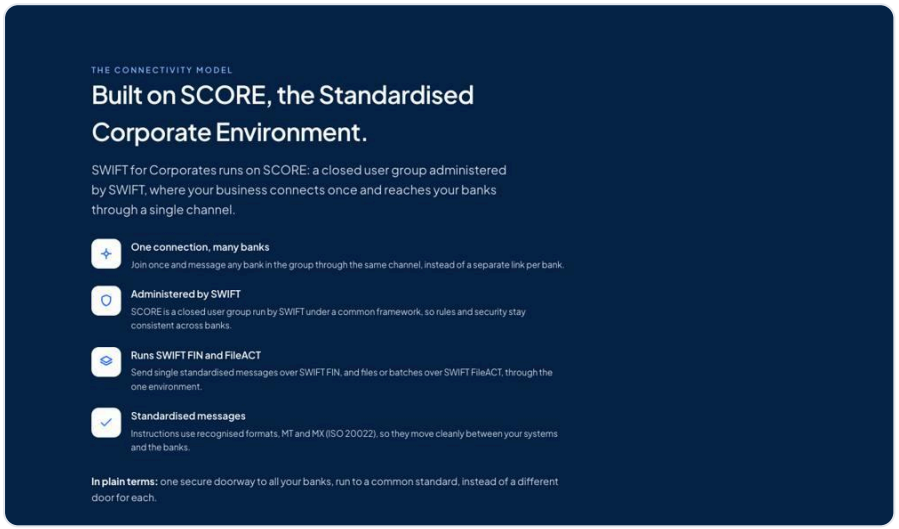

smartGUARANTEES · `smartguarantees-v1a.html` · section 5

Less paper, less waiting, more control.

Master it came from
Proof Points (Side by side) `content-block-sidebyside`

- heading moves above as a stacked section head with eyebrow and lede
- side-by-side body becomes a checklist beside an image
- no longer the heading-left, paragraph-right copy block

SWIFT for Corporates · `swift-corporates-v1a.html` · section 4

Built on SCORE, the Standardised Corporate Environment.

Master it came from
Proof Points (Side by side) `content-block-sidebyside`

- single column on navy instead of heading-left, copy-right
- adds an icon list of four connectivity points
- adds an 'In plain terms' summary paragraph

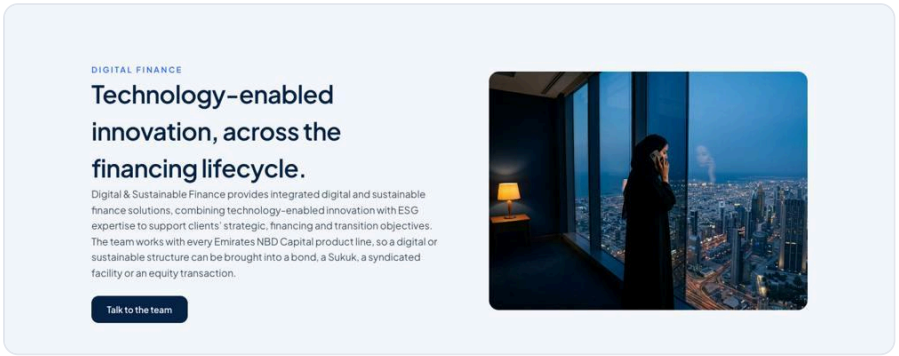

Debt Capital Markets · `debt-capital-markets-v1a.html` · section 5

One of MENAT's deepest liquidity platforms.

Master it came from
Proof Points (Side by side) `content-block-sidebyside`

- left column becomes eyebrow, heading, copy and a button
- right column becomes a count-up headline figure plus a greyscale logo row
- no longer a plain heading and paragraph copy block

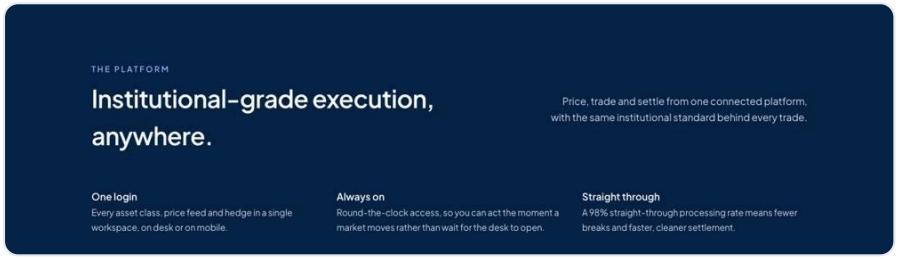

Digital & Sustainable Finance · `digital-sustainable-finance-v1a.html` · section 5

Technology-enabled innovation, across the financing lifecycle.

Master it came from
Proof Points (Side by side) `content-block-sidebyside`

- left column becomes eyebrow, heading, copy and a button
- right column becomes a framed image
- effectively a text-plus-image split, not the copy block

Execution Capabilities · `execution-capabilities-v2.html` · section 4

Institutional-grade execution, anywhere.

Master it came from
Proof Points (Side by side) `content-block-sidebyside`

- split section header on navy replaces the heading-left copy block
- adds a three-up list of title and description feature points
- nothing of the side-by-side layout remains

PAGE BY PAGE

Every section, in page order.

Site header and footer are omitted (every page uses the standard pair). For instances with overrides, the note lists the structural parts added or dropped compared with the master.
