WHOLE BANKING, FINAL · COMPONENT AUDIT · ROUND 2

# Which master components each page uses, and where it has drifted.

Every section on the 81 pages listed on start-here.html, checked against the 126 master components in the library (index.html).

| 81 | 561 | 99% | 3 | 33 |
|---|---|---|---|---|
| pages | content sections | built from a master | custom sections | masters never used |

12 October 2026 (re-run of the 9 October audit)

Prepared by Olivia, Mason and Sophia

SUMMARY

# Most of the site is built from the library. The drift is concentrated.

**558**
**Instance** 99%
Same structure as its master; only content and the master's documented options differ.

**0**
**Instance + overrides** 0%
Built from a master, with parts edited on this page that the master does not offer as options.

**0**
**Detached** 0%
Started from a master but restructured; master updates will not fit it.

**3**
**Custom** 1%
Not built from any master.

## The finding that matters most

Pages do not hold a live link to their master. Each instance is a pasted copy of the master's markup. That means only part of a master change reaches the pages:

- **Styling and behaviour do flow.** Every page loads the same ds.css and ds.js, so a change to a master's look or animation reaches all its instances.
- **Structure does not flow.** Adding a slot, swapping a button type or reordering a master changes nothing on the 81 pages. Each instance keeps the markup it was pasted with.

So "Instance + overrides" and "Detached" sections are where a future master change will either not appear or break. That is the list to fix first.

**New since 9 October:** 210 sections are now tagged `data-master`, so every instance of those masters can be found instantly when a master's structure changes.

## How each section was judged

| | |
|---|---|
| Instance | Matches the master. Content, images and the master's documented options are ignored, like variant properties in Figma. |
| Instance + overrides | That master, with page-only edits it does not offer as options. |
| Detached | Carries the master's name but has been rebuilt. Mason reviewed every one by hand. |
| Custom | Not built from any master. Sophia matched each to the masters that could replace it. |

Site header, footer and modals (171 sections) are counted separately. Text, images and layout utilities were ignored when comparing.

SINCE 9 OCTOBER

# What changed after the first audit.

**558**
**Instance** was 349 (+209)

**0**
**Instance + overrides** was 183 (-183)

**0**
**Detached** was 8 (-8)

**3**
**Custom** was 21 (-18)

## Tagged instances (data-master), checked by Olivia

Each was compared with its master block, text and images ignored. Allowed overrides: content, links, media, documented options.

| PAGE | # | SECTION | MASTER | STATUS | OLIVIA'S NOTE |
|---|---|---|---|---|---|
| cib-home-final.html | 3 | One relationship. The whole bank. | **Media Split, Live Chat** | Instance | Clean instance: only content differs. |
| cib-home-final.html | 5 | Integrated trade finance, end to end. | **Expand Duo** | Instance | Clean instance: only content differs. |
| cib-home-final.html | 6 | Raise capital with the region's leading IPO house. | **Film Stats Band** | Instance | Clean instance: only content differs. |
| cib-home-final.html | 7 | Corporate lending, built around your needs. | **Tabs - Desk reel** | Instance | Clean instance: only content differs. |
| cib-home-final.html | 8 | Landmark deals. And the clients behind them. | **Cards: Case Study (Carousel)** | Instance | Converted 12 Oct from the retired article-card carousel. Documented options: 3 columns; eyebrow and lead dropped. |
| cib-home-final.html | 9 | Principled finance. Designed for growth. | **Bento: Feature + Research** | Instance | Clean instance: only content differs. |
| cib-home-final.html | 11 | Banking built for every ambition. | **App Download Panel** | Instance | Clean instance: only content differs. |
| payments-trade-finance-v1a.html | 7 | Everything your treasury runs on. | **Useful Links** | Instance | Documented options: split header, section spacing, grouped lists side by side, pop-up rows (data-modal-open), #directory anchor. Content only. |

| PAGE | # | SECTION | MASTER | STATUS | OLIVIA'S NOTE |
|---|---|---|---|---|---|
| payments-trade-finance-v1a.html | 8 | The full picture, beyond payments and trade. | **Tabs – Desk reel** | Instance | Documented options: soft ground, single CTA, 4 desks, per-desk link opening Investment Banking in a new tab. |
| payments-v1a.html | 3 | Payments, reimagined. | **Feature Spotlight** | Instance | Re-synced 12 Oct: styled arrow link and list inks restored. One row (rows repeat). |
| payments-v1a.html | 4 | Tools that work together, so your business works smarter. | **Section Header** | Instance | Split alignment with lead + action in .sh-aside. |
| emirates-nbd-pay-v1a.html | 3 | E-commerce Payment Solutions | **Feature Scroll Story (Mockup right)** | Instance | Documented options (12 Oct): lean chapters, #ecom anchor. |
| emirates-nbd-pay-v1a.html | 4 | Point of Sale (POS) Solutions | **Feature Scroll Story (Mockup left)** | Instance | Documented options (12 Oct): lean chapters, 3 chapters, #pos anchor. |
| digital-solutions-v1a.html | 4 | ENBD Business | **Hero: Text Fade (Dark)** | Instance | Documented options (12 Oct): left aligned, one right caption with phase scrim, highlights rows, glass pill buttons. |
| digital-solutions-v1a.html | 5 | The digital channels your business runs on | **Scroll Showcase (Media left)** | Instance | Clean instance: nine channels, #channels anchor. |
| businessonline-x-v2.html | 1 | Banking on the move. | **Scroll Story: Video (Dark)** | Instance | Documented options: image-sequence source (box-v2 frames), light ground, opener with scroll cue, left and split captions, closing button. Overrides: content only. |
| businessonline-x-v2.html | 3 | Everyday banking, done digitally | **Feature Spotlight** | Instance | One row (reversed), documented option: no tick list. Re-synced 12 Oct: styled arrow link, master body size. |
| businessonline-x-v2.html | 4 | Track every payment, end to end | **Feature Spotlight** | Instance | One row, documented option: no tick list. Re-synced 12 Oct: styled arrow link, master body size. |
| businessonline-x-v2.html | 7 | Useful links ENBD Business learning guide KYC support portal | **Useful Links** | Instance | Re-synced 12 Oct: title and glyph inks restored. |
| smarttrade-v1a.html | 10 | Frequently asked questions. | **Accordion** | Instance | Lead dropped (optional), so the header is left aligned. Re-synced 12 Oct: master heading and icon inks; the inline contact link uses the library inline-link style. Content only. |
| smartscf-v1a.html | 6 | Plugs into how you already work. | **Bento: Spotlight** | Instance | Lead dropped (optional). Re-synced 12 Oct: the call-to-action tile is navy with an outline, as in the master. Content and tile spans only. |

| PAGE | # | SECTION | MASTER | STATUS | OLIVIA'S NOTE |
|---|---|---|---|---|---|
| smartguarantees-v1a.html | 2 | The digital home for your guarantees. | **Section Header** | Instance | Was labelled Big Statement but only ever held a header. Content only; the demo card-panel is dropped. |
| smartguarantees-v1a.html | 3 | Covering all your needs of a guarantee, in one place. | **Intro: Side by Side** | Instance | Documented option: split header above, media tile on the left. #how-it-works anchor. Content only. |
| smartguarantees-v1a.html | 4 | Cover for every guarantee you issue or receive. | **Cards: Kicker (Grid)** | Instance | Documented options: kicker dropped, 4 columns, #coverage anchor. |
| smartguarantees-v1a.html | 5 | Less paper, less waiting, more control. | **Feature Spotlight** | Instance | One reversed row (image right). Documented options: single row, no link, #why anchor. Content only. |
| smartguarantees-v1a.html | 6 | A public-sector deployment. | **Proof Points (Side by side)** | Instance | Re-synced 12 Oct: headline left, copy right. Documented options: eyebrow, source line, navy ground, #proof anchor. Content only. |
| smartguarantees-v1a.html | 7 | Connected to the rest of your trade toolkit. | **Cards: Icon Linked (Grid)** | Instance | Documented option: badge instead of icon. #ecosystem anchor. Content only. |
| smart-cdm-v1a.html | 2 | Cash is slow, heavy, and easy to lose track of. | **Big Statement** | Instance | Documented option: compact headline. Content only. |
| smart-cdm-v1a.html | 3 | So we brought the bank to you. | **Cards: Kicker (Grid)** | Instance | Documented options: navy ground, clear card surface, 4 columns, #demo anchor. |
| smart-cdm-v1a.html | 4 | Everything the machine does, in plain terms. | **Cards: Number (Grid)** | Instance | Documented option: footer category chip. #facts anchor. |
| api-banking-v1a.html | 3 | What is API Banking | **Feature Scroll Story (Mockup right)** | Instance | Documented options (12 Oct): image ground (photo + navy scrim, title-scene overlay), lean chapters with number-only kickers. Was the page-only api-dark / api-bg styling. Content only. |
| api-banking-v1a.html | 4 | API Security Controls | **Bento: Spotlight** | Instance | Documented options: all-feature tile mix, no eyebrow. Content only. |
| api-banking-v1a.html | 6 | Want to understand how API Banking works? | **Video Explainer** | Instance | Clean instance: only content differs. |
| payment-tracker-v1a.html | 4 | Follow every stage, in real time | **How It Works: Steps** | Instance | Documented options: lean steps, no closing button, no intro line. Content only. |
| payment-tracker-v1a.html | 5 | Cross-border payments ride the Swift gpi network, reaching b | **Statement + Stats** | Instance | Documented options: live tracker card, source footnote. Re-synced 12 Oct: ink-primary on the figures. Content only. |

## Fixes found in the masters themselves

- Four masters use root-absolute asset paths (`/assets/...`): media-chat-split, film-stats-band, app-download-panel, hero-image. Their instances already use relative paths.
- The hero-image master's demo lead contains an em-dash, as do several block header comments.
- The tabs-desk dossier still describes the old inline-script version.
- Still undocumented: the optional hero-ctas row (hero-image). Fixed on 12 Oct: tabs-desk documents surface-soft and the optional secondary link; useful-links and World Map - V2 document anchor ids on instances.

## Next conversions

- **9 support pages** (businessONLINE, smartTRADE, smartSCF, smartGUARANTEES, smartCDM, API Banking, Emirates NBD Pay, FX Hub, SWIFT) carry the same "Keep the how-to on hand." download list that tutorials had. Each can become a Useful Links instance, as tutorials did.
- **Video explainer** (api-banking-v1a): the runtime exists but has no master; codify it.
- **Masters upgraded this round:** World Map - V2 left its inline style and script (now in ds.css / ds.js, with Eyebrow and Stats options); Cards: Awards was added.

MASTER USAGE

# Which masters the pages lean on.

Instances counted across all pages, including site header and footer. "Pages" is how many distinct pages use it.

Building blocks such as buttons, typography, tables and payment mock-ups are used inside sections rather than as sections, so they are not part of this count: Checkout Card, POS Terminal, Phone Checkout, Payment Link, Chat Pay Invite, Browser Checkout, API Request, Form Elements, Breadcrumb, Pagination, Buttons, Typography, Icon Tiles & Numbers, Card Surfaces, Illustration Video, Lottie, Badges, Tags & Lists, Toast, Table, Empty State.

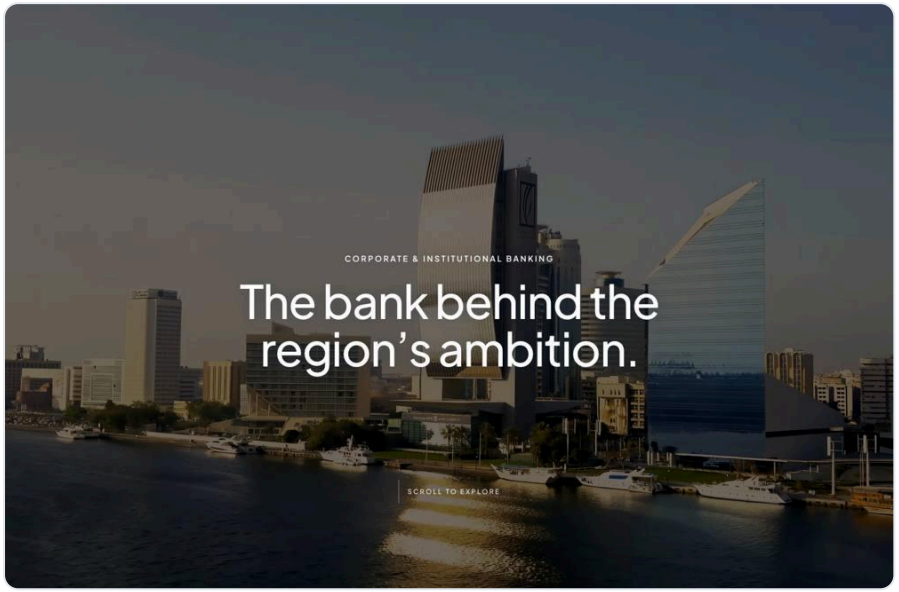

## Pages using components outside the gallery

**Superseded masters still in use:** `article-card` (1 pages).

CUSTOM SECTIONS · 3

# Sections not built from a master, and what could replace them.

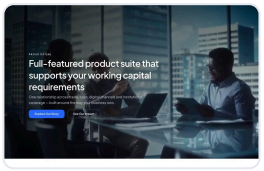

Each one with Sophia's recommended masters, ranked. DIRECT drops in with the same content shape, CLOSE needs small reshaping, PARTIAL covers the main job but loses something.

Corporate & Institutional Banking · `cib-home-final.html` · section 1

## The bank behind the region's ambition.

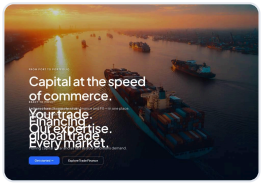

Home-page opener film: full-bleed world plate with H1 and scroll cue that hands off into a 'One bank. Multiple ways to grow.' statement row of solution tiles (a phone render lands in the first tile), with prev/next arrows.

PARTIAL · **Hero (Single (video))** `hero`
Carries the opener job: video media, eyebrow, H1, pause control.
Adapt: Loses the world-plate parallax, side captions and the scroll handoff into the tile row.

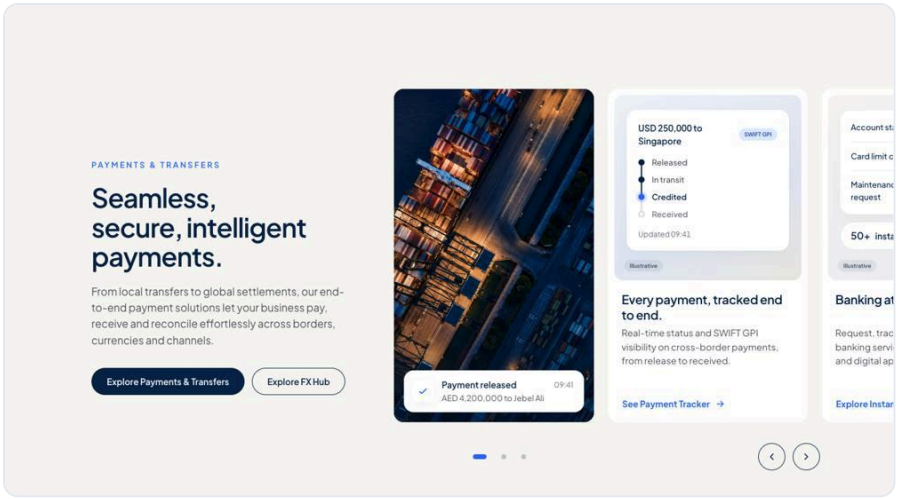

PARTIAL · **Cards: Tiles (Aside carousel)** `cards-tiles-aside-carousel`
Head-aside carousel of full-bleed image tiles matches the statement row (head left, tiles right, arrows).
Adapt: Would be a separate section after the hero; the phone landing in the Digital tile is lost.

PARTIAL · **Hero: Cinematic (Dark)** `hero-cinematic-pinned`
Pinned scrollytelling opener with phased text is the nearest master for the scroll-driven reveal.
Adapt: Frame-sequence engine, not a video plate; no tile row.

> **Keep custom:** The hero-to-card-row hand-off is the home page's signature and exists only here, so it is not a master candidate. If it ever has to be decoupled: Hero (single video) + cards-tiles-aside-carousel, losing the dock motion.

Corporate & Institutional Banking · `cib-home-final.html` · section 4

## Seamless, secure, intelligent payments.

Accepted as custom (12 Oct).

> **Keep custom:** Accepted as custom by Ram on 12 October.

---

Payments & Trade Finance · `payments-trade-finance-v1a.html` · section 1

## Move money. Finance trade.

Accepted as custom (12 Oct).

> **Keep custom:** Accepted as custom by Ram on 12 October.

PAGE BY PAGE

# Every section, in page order.

Site header and footer are omitted (every page uses the standard pair). For instances with overrides, the note lists the structural parts added or dropped compared with the master.
