WHOLE BANKING, FINAL · COMPONENT AUDIT · ROUND 2 COMPANION

Every Detached and Custom section, and what to do with it.

The 3 sections that do not follow a master today: 0 detached (started from a master, then rebuilt) and 3 custom (never built from one).

3	2	3
sections	pages	keep custom

Notes by Mason and Sophia

HOW TO READ THIS

Four kinds of decision.

Convert	An existing master fits. Swap the section for an instance, keeping the content.
New master	The pattern is good and recurs (or the runtime already supports it), but no master packages it yet.
Accept as custom	A one-off built from a master's parts; drop the master's name rather than force it back.
Keep custom	A signature section that should stay bespoke.

Patterns worth a master

- **Image Band** (3 sections: Lending, Markets, Insights): a full-bleed photo with left-aligned copy, a button and optional stats.
- **Text + image split** (3 to 4 sections: smartGUARANTEES, DCM, Digital & Sustainable Finance): eyebrow, heading, copy and a button beside an image or figure. Today they are forced into the copy-only Proof Points block.
- **Video Explainer** (API Banking): the runtime already has it; it only needs a block, dossier and gallery entry.

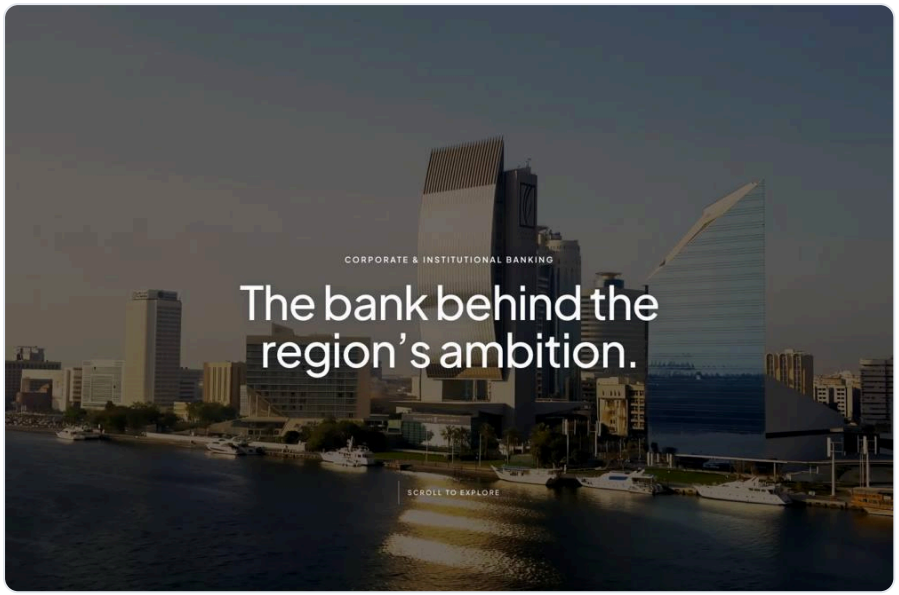

ALL SECTIONS, IN PAGE ORDER

Detached and custom.

PAGE	#	SECTION	MASTER	STATUS	DECISION	NOTE
cib-home-final.html	1	The bank behind the region's ambition.	None	Custom	Keep custom	The home page opener: a full-screen world film with the headline that hands off into a row of solution tiles, with a phone landing in the first tile. Fix: keep custom. It is the home page's signature and appears nowhere else.
cib-home-final.html	4	Seamless, secure, intelligent payments.	None	Custom	Keep custom	A bespoke bento carousel: it borrows the shared carousel track, arrows and dots, but every slide is a custom tile with its own header and drift animation. Decided: accepted as custom (12 Oct). Tagged data-custom="accepted"; no further action.
payments-trade-finance-v1a.html	1	Move money. Finance trade.	None	Custom	Keep custom	The page's bespoke cinematic opener: a video film with cloud and white-flash layers and its own phase and line-reveal behaviour. Decided: accepted as custom (12 Oct). Tagged data-custom="accepted"; no further action.

SIDE BY SIDE

What each section looks like today.

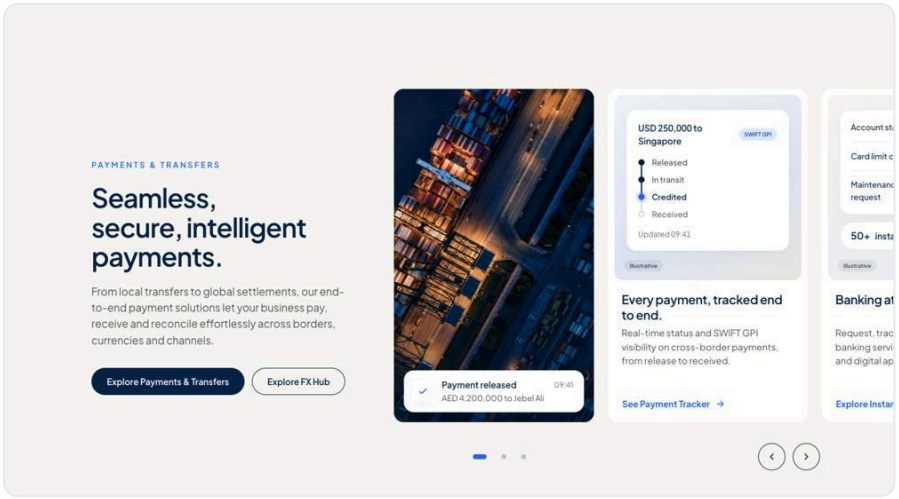

`cib-home-final.html` · section 1 · **Custom**

The bank behind the region’s ambition.

The home page opener: a full-screen world film with the headline that hands off into a row of solution tiles, with a phone landing in the first tile.

Fix: keep custom. It is the home page's signature and appears nowhere else.

`cib-home-final.html` · section 4 · **Custom**

Seamless, secure, intelligent payments.

A bespoke bento carousel: it borrows the shared carousel track, arrows and dots, but every slide is a custom tile with its own header and drift animation.

Decided: accepted as custom (12 Oct). Tagged data-custom="accepted"; no further action.

`payments-trade-finance-v1a.html` · section 1 · **Custom**

Move money. Finance trade.

The page's bespoke cinematic opener: a video film with cloud and white-flash layers and its own phase and line-reveal behaviour.

Decided: accepted as custom (12 Oct). Tagged data-custom="accepted"; no further action.
